Consequently the work proposed to be undertaken using this grant was not progressed in 2019/20 - 2021/22. Heat network considerations form part of the newly appointed Harrow Stategic Development Partner and also Local Plan review / climate emergency, so grant likely to be spent on 2022/23. Grant condition requires it to be spent on heat network / carbon investigations. The project is underway, Bins purchased and being delivered to housing sites. The remaining funding will be used to fund the additional revenue costs during the pivot. The WLA Strategic Investment Pot - Using Public Assets to Unlock Digital Infrastructure project "Enabling Fund" will be used to support the delivery of digital infrastructure in the borough. Cabinet approved the draft Digital Infrastructure Strategy of Digital Infrastructure Lead Officer which is a 3 year fixed term post, starting from April 2022. The work shave been committed and will continue into 2022/23, to provide support to residents on skills and apprenticeship and to support entrepreneurs and micro businesses. Funding earmarked for Sports Strategy - work to be commissioned in 2022/23.
