In accordance with the Local Government (Access to Information) Act 1985, the Addendum was admitted late to the agenda as it contained information relating to various items on the agenda and was based on information received after the despatch of the agenda. It was admitted to the agenda in order to enable Members to consider all information relevant to the items before them for decision.

**RESOLVED:** That authority be given to the Divisional Director of Planning to issue the decision notices in respect of the applications considered.

**(1) CEDARS COMMUNITY ARTS & YOUTH CENTRE, CHICHELEY GARDENS, HARROW HA3 6QH (APPLICATION 1/01)**

The Committee's attention was drawn to the addendum which outlined car parking management measures to prevent injudicious parking at events and how this could be addressed with planning conditions. Subject to the modification of Condition 20 as proposed, officers were of the view that adequate controls could be established to ensure that car parking demand did not adversely impact upon highway safety or residential amenity.

In response to queries raised by Members, it was noted that:

- Whilst accessible during the day, the pitch would be secured out of hours by fencing and gates.
- Officers were of the opinion that, in submitting the Travel Plan, the applicants had engaged with transport providers at a strategic level. Regular monitoring of bus services and PSV (Passenger Service Vehicles) services could inform the travel plan.
- Implementation of the Travel Plan should enable event clashes to be avoided. The situation would be monitored and potential overspill locations identified should the need arise.
- Should monitoring identify problems then consideration could be given to the implementation of formal parking controls under the Highways Act.
- The management of contractor parking during the building stage should be adequately dealt with by the Considerate Contractor's Code and Environmental Health legislation.

Reference: P/2003/09/LM/C –(Harrow Council) Proposed Use Of Existing Car Parking Area As Hardsurfaced Play Area And Retention Of Hardstanding Adjacent To New Post 16 Block For Car Parking (31 Spaces).

The Committee was advised that Sport England had expressed concern at the proposed development and did not consider that an exception under their criteria for development on playing fields and former playing fields would apply. Members expressed the view that the proposal to seek a temporary permission for two years which tied in with the other temporary consents with Sport England did not seem appropriate for a surfaced car park. The parking area would not impact upon the actual use of the playing fields themselves but the adjoining grassed area only and would service as an ancillary function for both the school and the use of the playing fields.

The officers undertook to liaise further with Sport England to seek the withdrawal of the objection. Should the officers be unsuccessful in persuading them to withdraw their objection the matter would be brought back to the Committee.

**DECISION:** MINDED TO GRANT the application subject to Sport England withdrawing its objection and to delegate grant of permission and imposition of conditions to the Divisional Director of Planning. Should Sport England not withdraw its objection, the application to be resubmitted to the Planning Committee and not determined by the Divisional Director of Planning.

*The Committee wished it to be recorded that the decision to delegate grant of permission and imposition of conditions to the Divisional Director of Planning was unanimous.*

**(7) 87 KINGSFIELD AVENUE, HARROW, HA2 6AR (APPLICATION 2/06)**

Reference: P/2652/09/LM/C – (Shield Homes Limited) Erection Of Detached Two Storey House With Garage And New Vehicle Cross Over At Rear Fronting Allington Road. (Extension To Time Limit For Implementing Planning Permission P/3299/06 Allowed On Appeal 13/06/07).

An officer reported an error in the description and requested that the revised description of the development be noted.

The Committee was advised that the application before the Committee was for an extension of the time limit for the planning permission allowed on appeal on 13 June 2007. Members needed to determine whether anything had changed since the Inspector's decision. Any consideration to refuse the application would require the identification of specific changes in circumstance and the provision of evidence.

In response to a question regarding access, attention was drawn to the appeal decision which stated that the Inspector had considered the views of local residents, including the additional points made about the loss of greenery, highway and traffic considerations and pedestrian safety. The Inspector had considered that none of these other points were of sufficient importance to outweigh his conclusions on the main issues which led to his decision to allow the appeal. Any decision to refuse the application without identifying a material change in circumstances since the appeal inspector's consideration of the proposal was likely to result in a claim for costs at appeal. The UDP (Unitary Development Plan) under which it was previously considered had not been replaced.

It was noted that the Inspector had stated that the retention of the garage and parking space was necessary to ensure adequate off-street parking space was available for use by the occupiers of the new house.

**DECISION:** GRANTED permission for the development described in the application and submitted plans, subject to the conditions and informatives reported.

*The Committee wished it to be recorded that the voting was as follows:*

*Councillors Husain Akhtar, Marilyn Ashton, Don Billson, Julia Merison and Joyce Nickolay as having supported the grant,*

*Councillors Keith Ferry, Thaya Idaikkadar and Jerry Miles as having abstained*
