Dark Green represents top quartile (best 25%) Light Green represents third quartile. Amber represents the second quartile. Red represents the bottom quartile (worst 25%)

Bandings are currently based on Local Authority scores for 2010/11 + = Bandings for quarter three are based on recently DfE published data for 2011-12

### Part B: Children Looked After (CLA)

Harrow's numbers & rate of looked after children have historically been lower than England & statistical neighbours. At 31st March 2013 there are 167 children looked after. Harrow has a higher proportion of males who are looked after and also a considerably higher proportion of 16-17 year olds in the care system.

#### B1 - Age Group

There is a slight decrease in 16-17 year olds and an increase in 10–15 year olds. 16-17 year olds remain the largest group.
We can see a 'bulge' moving through the years since 2009. Age group 10-15 years had dropped significantly as young people moved into the 16-17 age group and is in line with London and statistical neighbour average. With the recent increase we may see another bulge moving through. There is no single reason for the high numbers of older CLA.
Age 16 to 17 years has dropped slightly over the last year or so and we can expect it to drop further as more young people reach 18. The proportion is currently higher than England, London and statistical

neighbour average.

| Comparator Information for percentages of       | Age at 31 March 2012 (years) |        |         |          |         |  |  |
|---|------------------------------|--------|---------|----------|---------|--|--|

#### B2 - Gender

Harrow historically has a higher proportion of males who are looked after. However, the proportion of CLA who were female has increased from 32% at 31/05/2012 to 42% at 31/03/2013.

#### Comparator info CLA by gender 31.3.2012

| Average                | 58        | 42       |  |  |  |
| Harrow                 | 68% (105) | 32% (50) |  |  |  |

### **B3 - Ethnicity**

#### Harrow CLA ethnicity over time

As would be expected of Harrow's diverse population, the representation of BME groups is considerably higher than England and the statistical neighbour average. Numbers are relatively small, so there can be significant changes relating to a small number of sibling groups e.g. drop in 'white' CLA at 31.3.2011 The number of CLA in the 'mixed'

category remains much higher than the statistical neighbour average and the England average.

#### Comparator Information on Ethnicity % 31.03.2012 Source: SSDA903

|             | White | Mixed | Asian or<br>Asian<br>British | Black<br>or<br>Black<br>British | Other<br>Ethnic<br>Groups |
|-------------|-------|-------|------------------------------|---------------------------------|---------------------------|
| Harrow      | 34    | 18    | 15                           | 23                              | 10                        |
| Statistical |       |       |                              |                                 |                           |
| Neighbour   | 46    | 15    | 16                           | 20                              | 6                         |
| England     | 78    | 9     | 4                            | 7                               | 3                         |

### **B4 - Placements**

Harrow has a lower proportion of children in foster placements and slightly higher proportion of children in residential schools.

| Harrow Placement Numbers                    | Feb<br>2012 | Feb<br>2013 | Change |
|---|-------------|-------------|--------|
| Placed for Adoption                         | 0           | 2           | 2      |
| Foster placement with Relative or<br>Friend | 9           | 17          | 8      |
| Foster Carer – In-house                     | 62          | 66          | 4      |
| Foster Carer - Agency                       | 23          | 31          | 8      |
| Secure Unit                                 | 1           | 1           | 0      |
| Young Offenders Institution or Prison       |             | 0           | 0      |
| Placed with Parents                         |             | 0           | -1     |
| Independent Living                          | 22          | 19          | -3     |
| Residential Schools                         | 11          | 10          | -1     |
| Children's Homes                            | 15          | 10          | -5     |
| Other residential Accommodation             | 3           | 5           | 2      |
| Missing from Placement                      | 3           | 1           | -2     |
| Grand Total                                 | 147         | 160         | 13     |

Overall all types of foster care placements (71%) are now in line with statistical neighbours and England averages of around 72%, Numbers of in-house placements have increased with continuing focus to increase in-house provision. Particular challenges are faced with our older CLA cohort. Harrow continues to have a higher rate of older CLA living independently. Many asylum seeking young people are in this type of accommodation.

### Harrow Placement Detail 28<sup>th</sup> February 2013

#### **CLA Education Data**

| PI Description  | Target<br>12/13 | Jan 13 | Feb 13 | Comments  |
|---|-----------------|--------|--------|---|
| Number of school age CLA  | -               | 75     | 78     |   |
| Number of school age CLA (1 yr +)   | -               | 39     | 44     |   |
| % of school age CLA (1 yr +)<br>permanently excluded this year<br>(Sept to date)* | 0               | 0      | 0      | No CLA have had permanent exclusions so far this year                                   |
| % of school age CLA (1 yr +) fixed-<br>term excluded this year (Sept to<br>date)* | 10              | 5.1    | 4.5    | 2 of 44 children have had an exclusion who have been looked after 1 yr+                 |
| % CLA missing or absent from<br>school for 25 days or more (Sept to<br>date)      | 12              | 8.0    | 10.3   | 8 out of 78 school age CLA have been absent from school for 25 days (new academic year) |
| % of CLA absent from school (number of sessions)                                  | 12              | 7.3    | 8.8    | 590 out of 6725.5 days missed by 78 CLA<br>(new academic year) (approx 1180 sessions)   |

\*note that while indicators are standardised by including only CLA who have been looked after for more than one year, exclusions are monitored for all CLA

### Part C: Children Subject to a Child Protection Plan (CPP)

Children are made the subject of a child protection plan (CPP) when they are considered to be at risk of physical, sexual, emotional harm or neglect. Overall Harrow has seen a decrease in the number of children with a CPP. Figures for 31<sup>st</sup> March 2012 show 131 children with child protection plans which is approximately 19% drop from previous year and 123 children on 31/03/2013.

## C1 - CPP by Age

Comparator Information Ethnicity of Children subject to Child Protection Plans at 31<sup>st</sup> March 2012 (%) Source: CiN Census

|         | Under<br>1 | 1-4<br>years | 5-9<br>years | 10-15<br>years | 16 &<br>over |
|---------|------------|--------------|--------------|----------------|--------------|
| England | 13.40      | 30.50        | 28.50        | 25.20          | 2.20         |
| London  | 13.25      | 29.43        | 29.28        | 26.35          | 1.85         |
| Harrow  | 13.18      | 24.81        | 27.91        | 33.33          | 0.78         |

#### C2 - CPP by Ethnicity

There is a decrease in children from White backgrounds having a CP Plan and an increase in Asian Children. The proportion of BME groups is considerably higher than England and statistical neighbour averages but this is as expected due to Harrow's diverse population. Two thirds of children requiring a child protection plan in Harrow are from BME groups

#### Comparator Information Ethnicity of Children subject to Child Protection Plans at 31<sup>st</sup> March 2012 (%) Source: Cin Census

|         | White | Mixed | Asian<br>or<br>Asian<br>British | Black<br>or<br>Black<br>British | Other<br>Ethnic<br>Groups | Refused<br>/<br>Unknown |
|---------|-------|-------|---------------------------------|---------------------------------|---------------------------|-------------------------|
| Harrow  | 34.1  | 14    | 25.6                            | 24                              | 2.3                       | 0                       |
| London  | 45.1  | 15.3  | 12.2                            | 21.6                            | 2.77                      | 3                       |
| England | 75.9  | 7.9   | 5.4                             | 4.9                             | 1.2                       | 4.6                     |

#### C3 - CPP by gender

Comparator information for age groups & gender of children with Child Protection plans at 31<sup>st</sup> March 2012(%) Source: CiN Census

|         | Male | Female | Unborn/<br>Unknown<br>Gender |
|---------|------|--------|------------------------------|
| England | 50   | 48     | 2                            |
| London  | 49.1 | 48.4   | 2.5                          |
| Harrow  | 51.2 | 47.3   | 1.5                          |

#### C4 - CPP by Category of Abuse

Harrow had a high number of children requiring a plan under the category of neglect. Harrow tends to record primary types of abuse as one of the four categories than recording as multiple e.g. emotional abuse may be present in all types of abuse.

| Since 31 <sup>st</sup> March 2011 there has been a significant decrease in the number of children requiring a plan under the category of neglect. |
|---|
| At 31 <sup>st</sup> March 2013, 48% of children had a plan<br>due to concerns about neglect compared to 60%<br>at 31 <sup>st</sup> March 2011     |
|   |

#### C5 - CPP by duration of plan

Co-ordinated work has taken place to progress and end plans, meaning that the numbers in each duration category is more balanced and hopefully will not result in bulges moving through. Work continues to reduce this further and to bring Harrow into line with comparator levels.

The numbers of short term CPP show some fluctuations but the main changes are in the reductions of long term plans.

Comparator Info – CPP duration at 31st March 2012 (%)Source: CiN Census

|---------|------------------------|-----------------|------------------|----------------|------------------------|
| England | 28.6                   | 23.4            | 27.3             | 17.2           | 3.6                    |
| London  | 28.9                   | 20.9            | 26.3             | 18.3           | 5.6                    |
| Harrow  | 33                     | 9.3             | 29.5             | 19.4           | 9.3                    |

#### Part D – Additional Information – Numbers of CLA and CPP over time

# Comparator Info: Rates per 10,000 population at 31.03.2012

|         | CPP  | CLA |
|---------|------|-----|
| Harrow  | 23.6 | 29  |
| London  | 35.7 | 56  |
| England | 37.8 | 59  |

CPP numbers have been falling, this is partly due to ongoing work to reduce the numbers of longer term cases. Rates of CPP are below comparator averages at the end of 2012.

Children looked after numbers have risen since 2011 Harrow continues to have a significantly lower rate of CLA than the statistical neighbour average. Harrow's rate per population is just over half the statistical neighbour average. Further analysis of the statistical neighbours group shows that although Harrow is the lowest, Merton, Kingston and Redbridge have similar rates. The average is also pulled up by Croydon which has a very high rate of asylum seeking CLA due to the location of the UK Border Agency facility, plus Hillingdon and Hounslow which are similarly affected by Heathrow.
