13. INTRODUCTION

13.1 Introduction

In order to deliver the maximum cash benefit from a move to single contracts for Leisure provision across the three boroughs; and Libraries Provision across Harrow and Ealing; the options for Sharing common functions have been considered throughout the development of the joint procurement.

An options paper in March 2012 identified a recommended option for operational management of the Joint Contracts, with current Heads of Service remaining in place, with each borough managing a functional specialism(s) for other boroughs. Steering committee agreed that this recommended approach should be developed further to a formal proposal on the structure to support the shared model.

Following further development, the following allocation of accountabilities was proposed:

- Ealing to lead on Leisure Contract Management, across three boroughs
- Each borough will retain responsibility for their own sports development teams.
- Harrow to lead on Libraries Contract Management for Ealing and Harrow (Subject to on-going review)

This proposal was presented to Steering Committee in July 2012, they agreed that this structure will be recommended to Cabinets and Executives in February and March 2013, alongside the recommended decision on successful suppliers for the Leisure and Libraries Contracts.

This paper documents the Service Level Agreement (SLA), between the boroughs that will underpin the Lead Borough management of the Libraries Contractor.

13.2 Purpose

The purpose of this document is to ensure that all required elements are in place to provide effective shared contract management of the Libraries Contractor.

The goal is that the Senior Officer in the three boroughs agree the documented SLAs as the agreed service provision between the boroughs.

The objectives of the SLA are to:

- Provide a clear and unambiguous statement of what the Customer Boroughs can expect from the Service Providing Borough
- Present measures of the Services that will be provided to ensure that performance to the SLA can be tested
- Ensure that there is a match between the expected services and the planned service delivery

13.3 Scope

The scope of the SLA *includes* the management of the contract(s) to provide Libraries services. A full list of in scope facilities is listed in Appendix A.

The scope of this options review *excludes* the following:

- Harrow Music Services
- Harrow Heritage
- Harrow Arts Centre
- Ealing Adults Learning
- Pitzhanger House and Gallery
- Ealing Arts and Heritage

14. THE AGREEMENT

14.1 Agreement Overview

This agreement represents a Service Level Agreement (SLA), between the following Parties:

- London Borough of Harrow (Service Provider) and London Borough of Ealing (Customer) for provision of Contract Management for Libraries Services

The role of the Service Provider Borough is detailed in the Service Level section, below.

14.2 Periodic review of SLA

The SLA will be reviewed annually, as part of the annual contract review processes. The service level described, anticipates a higher level of interaction with the contractor in the first year of operation of the contract.

14.3 Individual Borough Sovereignty

At Member and Senior Officer level, policy and strategic matters will remain with each borough. The level of Member engagement with the responsible officer and contractors will remain unchanged, this is captured in the Service Agreements, below.

14.4 Responsibilities of Head of Service / Assistant Director (Lead Officer)

The responsible officers in both boroughs will retain ownership of the strategic direction of the Boroughs Library Services.

In both boroughs, The Heads of Service / Assistant Directors have responsibilities that are broader than the scope of the Libraries contract. The Heads of Service / Assistant Directors will retain the responsibility as Lead Officer for Libraries for their borough; owning the subject matter strategy for their service.

The Customer Borough will ensure that all staff and facilities are handed over to the Contractor on first day of contract; and will resolve any Staff Transfer issues identified after go-live.

The SLA is owned in the Customer Borough at Head of Service Level, any additional dissemination of information to Directors, Board and Cabinet / Executive; will continue to be undertaken in a similar manner to current processes and procedures.

14.5 Ealing Responsibilities with Respect to Inter-serve

While Ealing's contractual relationship with Inter-serve is in place. Ealing will provide access to the Inter-serve Client Management resource to the Service Provider Borough.

14.6 Development of Strategic Partnering

The aim of the Libraries Contract is wider than simple business as usual running of Libraries. Throughout the period of the contract the Heads of Service / Assistant Directors, will expect the Libraries Contractor to adapt to the boroughs' evolving requirements and strategy for Libraries.

Work to evolve the contractual relationship, to ensure on-going innovation in the delivery of library service will be the responsibility of the Service Provider, acting on behalf of the Customer Borough.

14.7 Contract Mobilisation

It is anticipated that during the first few months of the new contractual arrangements being in place, there will be additional resources needed to manage exceptions and incidents. This additional resourcing is outside of the scope of this SLA and the additional resources will be provided by the impacted borough. Arrangements for the Contract Mobilisation are covered in the implementation plan.
