**Council Tax and Business Rates Court Cost**

Currently, bad debt provisions (BDP) of £710k (CT £620k+ NDR £90k) exists for Court Costs against a potential BDP of £1.0m. From previous years trends, this amount of provision would normally appear to be adequate and in line with our overall provisions policy. However, this is the first year of the localisation of Council Tax Support, and we are seeing an increased amount of costs being raised (due to additional court action being raised) where there is little likelihood of costs being collected. This may pose a pressure on our required DBP levels regarding this area.

The under provision will be partly funded from improved collection on overpayments although this may still leave a balance that will need to be met from revenue.
