Equality Impact Assessment Template

The Council has revised and simplified its Equality Impact Assessment process. There is now just one Template. Project Managers will need to complete **Stages 1-3** to determine whether a full EqIA is required and the need to complete the whole template.

Complete Stages 1-3 for all project proposals, new policy, policy review, service review, deletion of service, restructure etc

Go to Stage 6 and complete the rest of the template

Equality Impact Assessment (EqIA) Template

In order to carry out this assessment, it is important that you have completed the EqIA E-learning Module and read the Corporate Guidelines on EqIAs. Please refer to these to assist you in completing this assessment.

It will also help you to look at the EqIA Template with Guidance Notes to assist you in completing the EqIA.

(=,,p,c,,, p,op	22 2	` '	,				

Education school expansion statutory processes are being undertaken. In policy, policy review, changing criteria, reduction / removal November 2013. Harrow Cabinet considered the outcome of the statutory of service, restructure, deletion of posts etc) consultation about the proposed expansion that was conducted during the autumn term and decided to publish statutory proposals to effect the expansion. On 13 March 2014, Harrow Cabinet will determine the statutory proposals. The permanent expansion of Norbury School is proposed as part of the Primary School Expansion Programme within Harrow Council's School Place Planning Strategy. Cabinet agreed its School Place Planning Strategy in February 2010 to meet the increasing demand for school places that is primarily birth rate driven. In July 2011, Cabinet agreed on a Primary School Expansion Programme as part of the School Place Planning Strategy. The strategy aims to secure sufficient primary school places through the creation of additional permanent places, supplemented by planned bulge classes and contingency bulge classes, opened if required. Residents / Service Partners / Schools Stakeholders Users Staff Age Disability **2.** Who are the main people / Protected Characteristics that Marriage and Civil Gender Reassignment Pregnancy and may be affected by your proposals? (✓ all that apply) **Partnership** Maternity

- **3.** Is the responsibility shared with another directorate, authority or organisation? If so:
- Who are the partners?
- Who has the overall responsibility?
- How have they been involved in the assessment?

There is a statutory responsibility on the local authority to ensure sufficient school places in its area. Children & Families is the lead directorate, though the school expansion programme has to be delivered corporately with the involvement of officers from other directorates e.g. Environment and Enterprise, Finance, Performance, Legal.

Sex

Religion or Belief

Other

The school expansion programme will be delivered in partnership between the local authority and schools.

Stage 2: Evidence / Data Collation

4. What evidence / data have you reviewed to assess the potential impact of your proposals? Include the actual data, statistics reviewed in the section below. This can include census data, borough profile, profile of service users, workforce profiles, results from consultations and the

Sexual Orientation

Race

involvement tracker, customer satisfaction surveys, focus groups, research interviews, staff surveys; complaints etc. Where possible include data on the nine Protected Characteristics.

(Where you have gaps (data is not available/being collated), you may need to include this as an action to address in your Improvement Action Plan at Stage 7)

Age (including carers of young/older people)

The Greater London Authority (GLA) prepares the pupil projections for Harrow Council. The GLA uses a range of information and data to prepare the projections including the number of births, number of pupils in Harrow schools, migration to Harrow and new housing development. Across London the population is growing, and the main reason for this is increasing birth rate. The demand for Reception class places (for pupils reaching 5 years of age) in Harrow schools is increasing:

- In January 2006 there were 2,224 Reception aged pupils in Harrow schools;
- In January 2009 there were 2,571 Reception aged pupils in Harrow schools;
- In January 2013 there were 2,879 Reception aged pupils in Harrow schools;
- In January 2019 it is projected there will be 3,437 Reception aged pupils in Harrow schools.

In September 2012 there were a total of 2,550 permanent Reception class places in Harrow's primary sector schools. In order to ensure sufficient school places to meet the predicted increased demand in the next few years there is a need to increase the number of permanent school places, in the primary sector initially and in the secondary sector in due course. Phase 1 of the primary school expansion programme was implemented in September 2013 with 8 schools in the borough permanently increasing their Reception intakes. Statutory processes for Phase 2 permanent expansions are under way to permanently expand a further 14 schools by September 2015. Phase 3 is being planned for permanent expansions from September 2016. Full information about the projected demand for school places and the planning to increase school places across Harrow can be viewed in the 21 November 2013 Cabinet papers (item 725 School Expansion Programme Appendix C) at http://www.harrow.gov.uk/www2/ieListDocuments.aspx?Cld=249&Mld=61433&Ver=4

See Appendix A of this EqIA for data about the profile of pupils attending the school.

Disability (including carers of disabled people)

The first floor of the building does not have lift access currently. There are no known requirements for access for any staff or pupils. The school makes mainstream provision and does not have additionally resourced provision for pupils with special educational needs. Accessibility issues would have to be dealt with by the school under a management principle of meeting needs at a ground floor level should there be access issues. This issue will be considered to see whether it can be addressed as part of the building works if the expansion proceeds.

An increase in children of school age can be expected to include increased numbers of children with disability and special educational needs. The total number of statements of special educational need in Harrow has increased by 93 (or 9%) between 2006 and 2011 calendar years. In addition, the percentage

		of children with a statement placed in a special school (Harrow, other local authority, independent or non-maintained) has increased from 35% to 43% during the same period. This represents continued pressure and demand for more special school places. On 18 July 2013, Harrow Cabinet approved the Special School SEN Placements Planning Framework for bringing forward proposals over the next 3-5 years to increase provision for children and young people with special educational needs. See Appendix A of this EqIA for data about the profile of pupils attending the school. See Appendix B of this EqIA for the profile of respondents to the statutory consultation.

Who was consulted? What consultation methods were used?		What do the results show about the impact of different groups / Protected Characteristics?	I I HIS MAY INCHINE THITTHEY CONSULTATION				
Statutory consultation was held with the Consultation info was widely distri			823 responses were received to the Phase 2 expansions consultations from respondents that included	on Harrow Cabinet considered the outcomes of the statutory consultations at its meeting on 21 November 2013, and decided to			

schools, their communities and interested parties about the expansion proposal between 16 September and 18 October 2013. including to neighbouring Local Authorities, local MPs. Councillors. Union representatives, Diocesan Bodies, voluntary organisations, and Harrow Youth Parliament. Information was put on the Harrow Council website. together with a facility for online response to the consultations. The Council distributed letters to local residents to inform them of the consultation and to invite them to consultation meetings at the school. Each school distributed information and response forms to their school communities and parents. and arranged open consultation meetings for parents and residents to enable discussion about the proposals.

parents/carers, pupils, school staff, governors, residents and organisations. A number of comments were included with the responses given. The responses made to the first consultation question indicate broad agreement with Harrow Council's approach to creating additional school places in Harrow.

In relation to the specific consultation question about the proposed expansion of Norbury School, the Governing Body of Norbury School strongly and enthusiastically supports the proposal to expand Norbury School but has some concerns:

- about plans to accommodate 30 extra children in September 2014 without the building works being completed;
- to be involved in design planning meetings and to have its suggestions considered;
- to be kept fully informed and consulted in the management of construction and refurbishment processes;
- Harrow Council to review traffic management options to ensure the safety of children and the community surrounding the school.

The Governors felt that that the new build would improve the site and play space and that they would be able to timetable the school day around some of these issues. The Governors concluded their response by stating that there is strong support for rebuild and expansion.

A summary of the number of responses to the specific consultation question about the proposed expansion of Norbury School is presented in the table:

Yes	No	Not Sure	Total
56	12	9	77
72.7%	15.6%	11.7%	100.0%

A number of comments were made by respondents about the location of the school in a busy area close to the town centre and the about the impact on nearby roads and local residents. Traffic issues are highlighted with many comments about traffic congestion and

publish statutory proposals to expand the schools.

Measures are being put in place to address the traffic and congestion issues arising from the creation of additional school places. These measures include:

- Transport Assessments at Phase 2
 expansion schools and Transport
 Statements at additional special
 educational needs places provision.
 Mott MacDonald, an independent
 company, has been procured to
 complete this work by the end of
 February 2014.
- Appointment of a Transport and Travel Planner Officer for the expansion projects to develop and implement effective travel strategies in conjunction with the schools.
- There will be a communication strategy for the Phase 2 expansion projects to raise the profile of school travel planning. An additional Communications Officer has been engaged to give this work a high profile.

The consultation responses have been sent to Mott MacDonald and the Transport and Travel Planner Officer for inclusion in their work.

inconsiderate behaviour by drivers and concerns about the safety of children. Comments are made about the small school site area and the need to ensure the new build is available soon enough and to high quality. A number of comments were made in support of the expansion to make sure every child in the local community has access to school placement.

The school have added the following points to this EqIA in relation to concerns during the build programme:

- accommodation a concern both for space and health and safety based on the reduction of fire escapes during the build: losing 4 major escapes and putting more children into this area because we have bulged three times and have more children in junior school now, which is where the build will happen.
- due to the above the LA need to be aware of the potential use of mobiles in order to have greater health and safety during the build and keep year 6 away from the building disruption.

These concerns are being considered by the project team to ensure that any necessary health and safety issues are addressed during the build programme.

6. What other (local, regional, national research, reports, media) data sources that you have used to inform this assessment?

List the Title of reports / documents and websites here.

The GLA School Roll Projections Service draws on a range of available national and regional data to inform its projections.

A regional approach is an important aspect of meeting the needs of children and young people with special educational needs. Contacts are being developed with free school proposers, and with neighbouring local authorities through the West London Alliance, to inform work to meet the need.

Stage 3: Assessing Potential Disproportionate Impact

7. Based on the evidence you have considered so far, is there a risk that your proposals could potentially have a disproportionate adverse impact on any of the Protected Characteristics?

	Age (including carers)	Disability (including carers)	Gender Reassignment	Marriage and Civil Partnership	Pregnancy and Maternity	Race	Religion and Belief	Sex	Sexual Orientation
Yes									
No	✓	✓	✓	✓	✓	✓	✓	✓	✓

YES - If there is a risk of disproportionate adverse Impact on any **ONE** of the Protected Characteristics, continue with the rest of the template.

- **Best Practice:** You may want to consider setting up a Working Group (including colleagues, partners, stakeholders, voluntary community sector organisations, service users and Unions) to develop the rest of the EqIA
- It will be useful to also collate further evidence (additional data, consultation with the relevant communities, stakeholder groups and service users directly affected by your proposals) to further assess the potential disproportionate impact identified and how this can be mitigated.

NO - If you have ticked 'No' to all of the above, then go to Stage 6

• Although the assessment may not have identified potential disproportionate impact, you may have identified actions which can be taken to advance equality of opportunity to make your proposals more inclusive. These actions should form your Improvement Action Plan at Stage 7

Stage 4: Collating Additional data / Evidence

8. What additional data / evidence have you considered in relation to your proposals as a result of the analysis at Stage 3?

(include this evidence, including any data, statistics, titles of documents and website links here)

Note: Please go to Stage 6.

9. What further consultation have you undertaken on your proposals as a result of your analysis at Stage 3?

or tribulation and control tribulation (, car amarantam am Joan proposatio an	on the contract of the contrac	
Who was consulted?	What consultation methods were used?	What do the results show about the impact on different groups / Protected Characteristics?	What actions have you taken to address the findings of the consultation? (This may include further consultation with the affected groups, revising your proposals).
Note: Please go to Stage 6.			

Stage 5: Assessing Impact and Analysis

10. What does your evidence tell you about the impact on different groups? Consider whether the evidence shows potential for differential impact, if so state whether this is an adverse or positive impact? How likely is this to happen? How you will mitigate/remove any adverse impact?

Protected Characteristic	Adverse	Positive <	Explain what this impact is, how likely it is to happen and the extent of impact if it was to occur. Note – Positive impact can also be used to demonstrate how your proposals meet the aims of the PSED Stage 9	What measures can you take to mitigate the impact or advance equality of opportunity? E.g. further consultation, research, implement equality monitoring etc (Also Include these in the Improvement Action Plan at Stage 7)
Age (including carers of young/older people)			Note: Please go to Stage 6.

	carers)	carers)	Partnership			
Yes						
No						

If you have answered "yes" to any of the above, set out what justification there may be for this in Q12a below - link this to the aims of the proposal and whether the disadvantage is proportionate to the need to meet these aims. (You are encouraged to seek legal advice, if you are concerned that the proposal may breach the equality legislation or you are unsure whether there is objective justification for the proposal)

If the analysis shows the potential for serious adverse impact or disadvantage (or potential discrimination) but you have identified a potential justification for this, this information must be presented to the decision maker for a final decision to be made on whether the disadvantage is proportionate to achieve the aims of the proposal.

- If there are adverse effects that are not justified and cannot be mitigated, you should not proceed with the proposal. (select outcome 4)
- If the analysis shows unlawful conduct under the equalities legislation, you should not proceed with the proposal. (select outcome 4)

13. Please indicate which of the following statements best describes the outcome of your EqIA (✓ tick one box only) Outcome 1 − No change required: the EqIA has not identified any potential for unlawful conduct or disproportionate impact and all opportunities to advance equality are being addressed. Outcome 2 − Minor adjustments to remove / mitigate adverse impact or advance equality have been identified by the EqIA. List the actions you propose to take to address this in the Improvement Action Plan at Stage 7 Outcome 3 − Continue with proposals despite having identified potential for adverse impact or missed opportunities to advance equality. In this case, the justification needs to be included in the EqIA and should be in line with the PSED to have 'due regard'. In some cases, compelling reasons will be needed. You should also consider whether there are sufficient plans to reduce the adverse impact and/or plans to monitor the impact. (Explain this in 13a below) Outcome 4 − Stop and rethink: when there is potential for serious adverse impact or disadvantage to one or more protected groups. (You are encouraged to seek Legal Advice about the potential for unlawful conduct under equalities legislation) 13a. If your EqIA is assessed as outcome 3 or you have ticked 'yes' in Q12, explain your justification with full reasoning to continue with your proposals.

Stage 7: Improvement Action Plan 14. List below any actions you plan to take as a result of this Impact Assessment. This should include any actions identified throughout the EqIA. Area of potential How will you know Target Date Lead Officer Date Action

adverse impact e.g. Race, Disability	Action required to mitigate	this is achieved? E.g. Performance Measure / Target			included in Service / Team Plan
Age. Insufficient school places for children in Harrow.	Work has been undertaken to maximise funding from the Government to create additional school places. This has included applications to the Priority School Building Programme and the Targeted Basic Need Programme, as well as work to maximise the annual basic need allocations.	Delivery, affordability and value for money will be monitored by the corporate Programme Board. Key milestones will be reported with RAG ratings to monitor progress.	1 September 2015.	Catherine Doran, Corporate Director Children & Families, through the Programme Board.	1 September 2013

Disability. Mobility access to the first floor of the building is restricted by the absence of a lift and some steps.	The position about provision to address access issues will be considered further. It is understood not to be a legal requirement and the available funding is limited and intended for the creation of additional teaching spaces. However, the Disability Discrimination Act and the good practice elements to this issue will be considered to identify what may be possible.	The issue will be considered by the Capital Project Team and referred to the Programme Board if necessary.	28 March 2014.	Mark Sperring, Head of Capital Project Team	18 February 2014 (raised at weekly update meeting)
Insufficient education provision to meet the needs of children with special educational needs.	This area of potential adverse impact of the increased number of children in the borough has been considered. Harrow Cabinet agreed its Special School and SEN Placements Planning Framework in July 2013, and successful applications have been made to the Government's Targeted Basic Need Programme for funds to expand the places in Harrow's special schools and to create more additionally resourced provision places in Harrow's mainstream schools.	Completion of the projects to expand Harrow's special schools and to create units for more additionally resourced provision places in Harrow's mainstream schools.	1 September 2015.	Catherine Doran through the Programme Board.	1 March 2013
Residents / Service Users. Many concerns about the impacts of traffic congestion.	Measures are being put in place to address the traffic and congestion issues arising from the creation of additional school places. See Section 5 above. The consultation responses have been sent to Mott MacDonald and the Transport and Travel Planner Officer for inclusion in their work.	Traffic Assessments and School Travel Plans will be submitted as part of the Planning Applications.	18 June 2014.	Mark Sperring, Head of Capital Project Team.	November 2013.

Stage 8 - Monitoring
The full impact of the proposals may only be known after they have been implemented. It is therefore important to ensure effective monitoring measures are in place to assess the impact.

15. How will you monitor the impact of the propose been implemented? What monitoring measures in ensure effective monitoring of your proposals? However, (Also Include in Improvement Action Plan and Improvement Action Plan Action	eed to be introduced to by often will you do	from relevant corporat	on Officer Group, comprised of representatives te departments, meets monthly and will monitor is and the continuing levels of need.
