Dear Sir,

My name is _____ and I am the lead petitioner opposing CPZ in Bellamy Drive. I live at the above address, Bellamy Drive, Stanmore, HA7 2DA.

We the petitioners object to the introduction of CPZ in Bellamy Drive for the following reasons:

1. The proposal for CPZ during the day will not solve our parking problems which only occur in the evenings and at weekends. It will instead incur added cost which we deem unnecessary.
2. We dispute the idea that restrictions on Belmont Circle will cause a problem due to the knock-on effect during the day, meaning that the purchase of permits and visitors' tickets would be an unnecessary burden, one which we do not wish to take on. The Circle is not a busy shopping area and there isn't a station nearby. There are also 2 free car parks.
3. The argument relating to the pubs and restaurants is irrelevant since the need for extra parking mainly takes place in the evenings when CPZ would not be operational anyway. In the day time there aren't many cars in the road, and a few more temporarily parked, if that were to arise, would not be problematic.
4. We object to having to pay for relatives and visitors to park when there is no need. The urgency to provide a ticket will cause stress, especially to elderly residents. We could accept this if there were real problems, but this is not the case and we do not envisage great changes.

6. Paying for a permit is not even a guarantee of a space, so there is no benefit for the residents, especially on a Saturday. This particularly applies to the residents of Bellamy Court.

7. In conclusion we do not wish to have any controlled parking in our street.

Yours faithfully,
