Stage 1: Overview					
In May 2014, a new Labour administration took control of the at Council on the 12th June a new vision and set of priorities					

1. What are you trying to do?

(Explain proposals e.g. introduction of a new service or policy, policy review, changing criteria, reduction / removal of service, restructure, deletion of posts etc)

Working Together to Make a Difference for Harrow Vision:

**Priorities:** 

Making a difference for the vulnerable Making a difference for communities Making a difference for local businesses

Making a difference for families

The Plan sets out the Administration's ambition for the borough and the projects and initiatives the Council will prioritise over the next three years to deliver on the vision, priorities and outcomes. The delivery Plan and measures have also been updated to reflect the projects and initiatives that the council will prioritise over the next 4 years.

This EQIA accompanies the new Corporate Plan, which is drawn from the approved versions of the Corporate Plan in July 2014, February 2013 (The agreed Corporate Plan covered two years including 2014/15) and February 2014.

The Corporate Plan will be delivered within the same cost envelope as the approved MTFS in February 2015. Given the approved budget, there are no new savings proposals being put forward as part of this Plan. There are therefore no equality implications from the perspective of additional savings.

From the perspective of the activity which is set out within the Plan they are all supporting the Corporate Priorities which encompass all protected characteristics. Therefore there are no direct adverse implications from the delivery plan. However, for some of the substantial areas where work is to start on developing business cases or on new ways of delivery, officers will need to carry out initial EQIAs to ensure that any indirect implications are appropriately managed and mitigated against.

2. Who are the main people / Protected Characteristics that may be affected by your proposals? (✓ all that apply)

Residents / Service Users	X	Partners	х	Stakeholders	x
Staff	Χ	Age	Х	Disability	Х
Gender Reassignment	X	Marriage and Civil Partnership	x	Pregnancy and Maternity	x
Race	Χ	Religion or Belief	Х	Sex	X
Sexual Orientation	Х	Other			

- **3.** Is the responsibility shared with another directorate, authority or organisation? If so:
- Who are the partners?
- Who has the overall responsibility?
- How have they been involved in the assessment?

Some of the activities proposed in the Corporate Plan are delivered in partnership with statutory partners like the health service, e.g. related activity to deliver health and social care services to adults. For activity involving partners which is new within the Corporate Plan EQIAs will be completed where appropriate to do so.

### Stage 2: Evidence / Data Collation

**4.** What evidence / data have you reviewed to assess the potential impact of your proposals? Include the actual data, statistics reviewed in the section below. This can include census data, borough profile, profile of service users, workforce profiles, results from consultations and the involvement tracker, customer satisfaction surveys, focus groups, research interviews, staff surveys; complaints etc. Where possible include data on the nine Protected Characteristics.

(Where you have gaps (data is not available/being collated), you may need to include this as an action to address in your Improvement Action Plan at Stage 7)

The following table has been taken from the Harrow Annual Equality in Employment Monitoring Report 2012/13, the 2011 census. It shows the known make up of staff working for Harrow Council and residents in Harrow.

5. What consultation have you undert	aken on your proposals?					
Who was consulted?	/hat consultation methods were used?	What do the results show about the impact on different groups / Protected Characteristics?	What actions have you taken to address the findings of the consultation? (This may include further consultation with the affected groups, revising			

				your proposals).
The delivery plan is updated from the Plan agreed at July 2014 Council. Where there are similar projects and activities being delivered, the relevant consultation will have either been undertaken before these were put forward to be incorporated in the Plan, or will have consultation as part of their next steps towards delivery.  Where there are new elements in the plan, these are based on the Labour Party Manifesto, which has been developed in consultation with Harrow residents. Where necessary, further consultation will be undertaken with residents and communities to shape the delivery of these proposals, in keeping with the ambition of the Administration to consult and engage.	There were a range of consultation methods used developing the proposals of previous Plan, including survive groups and stakehold meetings.  For the additional areas, consultation was undertaked community groups, including women's groups, Trades used and businesses.	for the urveys, der sen with ing	Given the Delivery Plan has within it projects which are either about the creation of efficiencies (i.e. no impact on outcome but reduction in resource investment) or activities which will enhance quality of life there is no disproportionate impact of different groups. # Stage 3: Assessing Potential Disproportionate Impact

**7.** Based on the evidence you have considered so far, is there a risk that your proposals could potentially have a disproportionate adverse impact on any of the Protected Characteristics?

	Age (including carers)	Disability (including carers)	Gender Reassignment	Marriage and Civil Partnership	Pregnancy and Maternity	Race	Religion and Belief	Sex	Sexual Orientation
Yes									
No	Х	Х	X	X	X	Х	Х	Х	Х

**YES -** If there is a risk of disproportionate adverse Impact on any **ONE** of the Protected Characteristics, continue with the rest of the template.

- **Best Practice:** You may want to consider setting up a Working Group (including colleagues, partners, stakeholders, voluntary community sector organisations, service users and Unions) to develop the rest of the EqIA
- It will be useful to also collate further evidence (additional data, consultation with the relevant communities, stakeholder groups and service users directly affected by your proposals) to further assess the potential disproportionate impact identified and how this can be mitigated.

NO - If you have ticked 'No' to all of the above, then go to Stage 6

Although the assessment may not have identified potential disproportionate impact, you may have identified actions which can be taken to
advance equality of opportunity to make your proposals more inclusive. These actions should form your Improvement Action Plan at Stage 7

## Stage 4: Collating Additional data / Evidence

**8**. What additional data / evidence have you considered in relation to your proposals as a result of the analysis at Stage 3?

(include this evidence, including any data, statistics, titles of documents and website links here)

9. What further consultation have you undertaken on your proposals as a result of your analysis at Stage 3?

Who was consulted?	What consultation methods were used?	What do the results show about the impact on different groups / Protected Characteristics?	What actions have you taken to address the findings of the consultation?  (This may include further consultation with the affected groups, revising

If yes, what is the potential impact and how likely is to happen?				
12 Is there any evidence or concern that the notential adverse impact ident	ified may result in	a Protected Cha	racteristic being di	sadvantaged?

**12.** Is there any evidence or concern that the potential adverse impact identified may result in a Protected Characteristic being disadvantaged? (Please refer to the Corporate Guidelines for guidance on the definitions of discrimination, harassment and victimisation and other prohibited conduct under the Equality Act) available on Harrow HUB/Equalities and Diversity/Policies and Legislation

	Age (including carers)	Disability (including carers)	Gender Reassignment	Marriage and Civil Partnership	Pregnancy and Maternity	Race	Religion and Belief	Sex	Sexual Orientation
Yes									
No									

If you have answered "yes" to any of the above, set out what justification there may be for this in Q12a below - link this to the aims of the proposal and whether the disadvantage is proportionate to the need to meet these aims. (You are encouraged to seek legal advice, if you are concerned that the proposal may breach the equality legislation or you are unsure whether there is objective justification for the proposal)

If the analysis shows the potential for serious adverse impact or disadvantage (or potential discrimination) but you have identified a potential justification for this, this information must be presented to the decision maker for a final decision to be made on whether the disadvantage is proportionate to achieve the aims of the proposal.

- If there are adverse effects that are not justified and cannot be mitigated, you should not proceed with the proposal. (select outcome 4)
- If the analysis shows unlawful conduct under the equalities legislation, you should not proceed with the proposal. (select outcome 4)

# Stage 6: Decision 13. Please indicate which of the following statements best describes the outcome of your EqIA ( ✓ tick one box only) Outcome 1 — No change required: the EqIA has not identified any potential for unlawful conduct or disproportionate impact and all opportunities to advance equality are being addressed. Outcome 2 — Minor adjustments to remove / mitigate adverse impact or advance equality have been identified by the EqIA. List the actions you propose to take to address this in the Improvement Action Plan at Stage 7 Outcome 3 — Continue with proposals despite having identified potential for adverse impact or missed opportunities to advance equality. In this case, the justification needs to be included in the EqIA and should be in line with the PSED to have 'due regard'. In some cases, compelling reasons will be needed. You should also consider whether there are sufficient plans to reduce the adverse

impact and/or plans to monitor the impact. (Explain this in 13a below)

**Outcome 4** – Stop and rethink: when there is potential for serious adverse impact or disadvantage to one or more protected groups. (You are encouraged to seek Legal Advice about the potential for unlawful conduct under equalities legislation)

**13a.** If your EqIA is assessed as **outcome 3 or you have ticked 'yes' in Q12**, explain your justification with full reasoning to continue with your proposals.

#### Stage 7: Improvement Action Plan 14. List below any actions you plan to take as a result of this Impact Assessment. This should include any actions identified throughout the EqIA.
