**5 March 2015**

**Dear Ms Morgan**

**RE: LONGFIELD PRIMARY SCHOOL EXPANSION PROGRAMME**

**The Public Notice in The Harrow Times of 26 February 2015 has provided the first knowledge that I have had of the proposed expansion of Longfield School by ultimately 210 pupils (and no doubt many more teachers, teaching assistants and other support staff).**

**My personal concern is the additional amount of traffic that this will bring to the area, particularly at the start and finish of the school day, and the impact on parking in the area.**

**Already parents from both Longfield and Buckingham schools regularly park alongside my house,  
and have occasionally blocked the crossover  
. With more traffic the likelihood of me being inconvenienced  
increases as parents compete for scarce parking spaces.**

**Perhaps more use could be made of double yellow lines and bussing children to and from school, as is often mooted but rarely done in this country.**

**As ever, I am sure that my comments will be totally ignored and that the proposal is in fact a plan. Still I would wish to be kept informed as to what transpires.**

**Yours sincerely**
