

**Background Paper Cabinet report 15 October 2015 - Comments from expansion consultation responses STAG LANE SCHOOLS**

Question 1	Comment about Question 1 - Do you agree with the approach to create additional school places in Harrow?	Question 2	Comment about Question 2 - Do you agree with the proposal to permanently expand Stag Lane Infant and Junior Schools to become a four forms of entry school from September 2015 (Infants) and September 2017 (Juniors)?
No	yes. we need new schools looking at 20yrs ahead. not DIY extensions to existng overcrowded schools. use of wasted spaces in public parks should be used for these schools. this will also save on park maintanance costs. Councel need to think aboutside the box and not tinker on the edges. Roe green park is ideal place for a super school. under one roof. for ages from 5 to 19. demolish all existng schools in area and use the sapce for new homes.	No	build new schools with morden tech and IT services.
No	At present my child is not getting the support she is meant to receive thus effecting her studies - this goes for all children.	No	As I said I do not agree with the whole expansion. There is not enough space in the site at the moment and having more children will be unhealthy, play area, less activity, etc.
No	New schools should be built. Existing ones being expanded will be detrimental to the pupils in them currently.	No	Think 3 form entry is big enough. Hall, playground, staff car park, etc will not accommodate more.
No		No	
No	The overall solution should be to create more schools within the borough and NOT to add to the existing cohort of schools adding to their already extremely complex needs of children.	No	To mention just a few their playgrounds are extremely congested, the traffic in the mornings is terrible i have witnessed children jumping out of cars, parents pushing their babies in the road because the pathway cannot accommodate the volume of parents and illegal parking. It will only get worst!
No		No	
No		No	Will be over crowded.
No	This will be horrendous for the residents. We already have problems with parking.	No	This will mean more people , more cars. Dangerous for children.
No		No	
No		No	
No	The Council needs to consider that this area is over crowded. Currently expanding the school will only encourage more huosing shortages and traffic problems, which are a huge problem for residents currently.	No	The reason for this expansion is because the government can't control immigration, why should taxpayers have to suffer!!
No	No	No	No
No	I agree Harrow needs more school places, but I don't agree that this is achieved well with an expansion of Stag Lane School.	No	There is already not enough space in the school for the children, in the play ground, on the pavement outside - huge Health & Safetly problems, no space in the hall.
No	Cramming children into inadequate space affects behaviour. There is less place to play and no spare space for small groups to work. Overcrowding produces stress which is counterproductive to good learning.	No	As above.
No	Schools will be overcrowded by the approach - less space for children to play - possibly reduction in the playground/playing field areas. Traffic will be a nightmare for local residents.	No	As above.
No		No	Obstructions to parking for school staff and numbers. Funding is insufficient for what we schools do now.
No	Consider changes to overcrowding in houses causing overcrowding in schools.	No	Health & Safety. Too small site.
No	Too much pressure being put on schools / learning / results.	No	Will affect residents parking / traffic. No space.
No	Not if you're cramming students into areas. Traffic / Paking issues. Safety issues.	No	Making the playground smaller - makes no sense. Traffic / parking already a huge problem. It just doesn't make any sense.

No		No	
No	Land space and area surrounding doesn't seem able to support such expansion.	No	See above.
No	More risks given to children on roads which is not safe.	No	Extra strain on school resources and staff.
No		No	
No		No	
No	Unless outsiders are contributing with hard cash to fund education & premises, local Harrow residents should not be expected to fund EU & other migrant education when no contribution has been made.	No	Please see above. The good local schools of the past are becoming refugee camps and this has to stop.
No	Playground area has consistently been reduced when expansion of class has happened. Children need more free space to run around and the school is already over capacity.	No	Adding more children to school? How will this help over capacity school already? Even if more space is created - I believe attention to children, needs and personal feeling of school will be lost!

Not sure	will you increase number of teaching staff too? How are you going to accommodate all the children? Will the teaching quality be affected? Will lunch time be extended?	Not sure	Teh same questions as above.
Not sure		Not sure	Only if it does'nt upset children who are currently studying as it's upsetting their routines.

Yes		No	
Yes	Yes in principle but this proposal is not suitable for this school.	No	It is a small school. I can not see how it can expand further. There is already a great burden on the local area and there is no infrastructure to support it.
Yes		Not sure	
Yes		Not sure	
Yes	Why can't we build new schools instead of building new houses & flats. So many houses & flats but no new school.	Not sure	Not really, because if they expand the schools and have more children in the school, also play grounds will be small for them. Other thing is when new foreign kids join the school, their first language will not be English so teacher needs to give more time for them.
Yes		Not sure	
Yes		Yes	There is need for secondary schools to be involved with the plans as more places will be needed locally to Stag Lane in future years

Yes	I think that in the area are a lot of children and if this expansion is approved is going to benefit for the families and with accommodating children in the local area.	Yes	I think need to be expanded, there is need for more places in the school, for children and storage of the school equipment.
Yes		Yes	
Yes	We need the additional space. 30 students per class should be the maximum.	Yes

Yes	This is the only viable and practical solution to the increase in the child population in Harrow. It should have been anticipated and done sooner.	Yes	There needs to be additional resources and budget given to the school to support the school expansion.
Yes	No comments.	Yes	No.
Yes	This is much needed.	Yes	Yes, as it is a very good school and opportunity should be given to more children to attend.
