## Equality Impact Assessment Template

The Council has revised and simplified its Equality Impact Assessment process (EqIA). There is now just one Template. Lead Officers will need to complete **Stages 1-3** to determine whether a full EqIA is required and the need to complete the whole template.

- In order to complete this assessment, it is important that you have read the Corporate Guidelines on EqIAs and preferably completed the EqIA E-learning Module.
- You are also encouraged to refer to the EqIA Template with Guidance Notes to assist you in completing this template.
- SIGN OFF: All EqIAs need to be signed off by your Directorate Equality Task Groups. EqIAs relating to Cabinet Reports need to be submitted to the EqIA Quality Assurance Group at least one month before your Cabinet Report date. This group meets on the first Monday of each month.
- Legal will NOT accept any reports without a fully completed, Quality Assured and signed off EqIA.

The EqIA Guidance, Template and sign off process is available on the Hub under Equality and Diversity

| Fouality Imr   | pact Assessment (EqIA) Template  |
|--|--|
| Type of Decision: Tick $\checkmark$  | Cabinet ✓ Portfolio Holder Other (explain)   |
| Date decision to be taken:   | 2016/2017  |
| Value of savings to be made (if applicable):   | £1.0 million   |
| Title of Project:  | Demographic Growth savings   |
| Reference:   | PA_20  |
| Directorate / Service responsible:   | Adult Social Care  |
| Name and job title of Lead Officer:  | Visva Sathasivam   |
| Name & contact details of the other persons involved in the assessment:  | Visva Sathasivam, Shaun Riley, Seth Mills, Anne Mosley and Barbara Huggan  |
| Date of assessment (including review dates):<br>Stage 1: Overview  | 10/08/2015   |
| <ol> <li>What are you trying to do?</li> <li>(Explain your proposals here e.g. introduction of a new service or policy, policy review, changing criteria, reduction / removal of service, restructure, deletion of posts etc)</li> </ol> | This proposal is one of the projects falling within the minimising adults work stream under<br>'Project Infinity' and as such should not be viewed in isolation but as one part of a package of<br>savings proposals to be delivered.<br>The combination of extending life expectancy and the ageing of those born in the baby boom,<br>just after the Second World War, means that the population aged over 65 is growing at a much<br>faster rate than those under 65. Over the next 20 years the population aged 65-84 will rise by 39<br>per cent and those over 85 by 106 per cent (Office of National Statistics). As well as the<br>increase in older people, the population is becoming more diverse and advances in medicine<br>are meaning that more children with severe disabilities and long term conditions are transitioning<br>into Adulthood with a substantially increased life expectancy.<br>The current MTFS assumed demographic growth until 2016/17, thereafter requiring the<br>directorate to contain growth within existing resources. The growth funds new vulnerable<br>service users coming into the Adult Social Care service, including children transitioning to adult<br>services, increasing needs of older people and people with physical and learning disabilities and<br>those with mental health problems, as well as funding increased costs arising from increasing<br>complexity of need. The growth also enables any new unfunded legislative requirements that<br>may be required i.e.; Deprivation of Liberty Standards (DoLs) – grant funding £104k but forecast<br>cost in 2015/16 in the region of £375k.<br><b>Savings Proposal:</b><br>This proposal is to put forward the allocated growth in 2016/17 of £2.5m as a saving. |

|   | Of the controllable Adults bud<br>represents approximately £35<br>has been awarded annually in<br>Population Information [POPI<br>The purchasing budget funds<br>(residential/nursing/supported<br>community (largely through c<br>inflation etc.) of £4.6m. ## Stage 2: Evidence & Data Analysis

4. What evidence is available to assess the potential impact of your proposals? This can include census data, borough profile, profile of service users, workforce profiles, results from consultations and the involvement tracker, customer satisfaction surveys, focus groups, research interviews, staff surveys, press reports, letters from residents and complaints etc. Where possible include data on the nine Protected Characteristics.

(Where you have gaps (data is not available/being collated for any Protected Characteristic), you may need to include this as an action to address in your Improvement Action Plan at Stage 6)

| Protected Characteristic                         | Evidence   | Analysis & Impact   |
|--|--|---|
| Age (including carers of young/older people)     | POPPI & PANSI Data 2014-2018<br>Care Act 2014<br>Business Intelligence | Total number of the population aged 65 and over with a limiting <b>long term illness</b> whose day-to-day activities are limited a little will rise from <b>8,949</b> (2014) to <b>9,736</b> (2018)<br>Total number of the population aged 65 and over with a limiting <b>long term illness</b> whose day-to-day activities are limited a lot will rise from <b>8,675</b> (2014) to <b>9,503</b> (2018)<br>Care Act 2014 identifies that the local authority must promote well being, thus employing the well being principle which applies both to the service user as well as the carer's support needs. It has been well documented by ADASS and SCIE that there has been and will be an increase in demand for services and provisions under this principle.<br>Harrow Business Intelligence has documented the increase in service users over the period of 2014 to 2018, hence demonstrating an increase in demand of service provision |
| Disability (including carers of disabled people) | POPPI & PANSI Data 2014-2018   | Total population aged 18-64 predicted to have a learning  |

|                                 | Care Act 2014                             | disability will rise from 3,782 (2014) to 3,910 (2018)  |
|---------------------------------|---|---|
|                                 | Business Intelligence                     | Total population aged 18-64 predicted to have a <b>moderate physical disability</b> will rise from 11,582 (2014) to <b>12,124</b> (2018)  |
|                                 |   | Total population aged 18-64 predicted to have a <b>serious</b><br><b>physical disability</b> will rise from <b>3,326</b> (2014) to <b>3517</b><br>(2018)  |
|                                 |   | Care Act 2014 identifies that the local authority must<br>promote well being, thus employing the well being principle<br>which applies both to the service user as well as the<br>carer's support needs. It has been well documented by<br>ADASS and SCIE that there has been and will be an<br>increase in demand for services and provisions under this<br>principle. |
|                                 |   | Harrow Business Intelligence has documented the increase in service users over the period of 2014 to 2018, hence demonstrating an increase in demand of service provision   |
| Gender Reassignment             | Specific information not widely published | Marginal impact to this service user group  |
| Marriage / Civil<br>Partnership | Specific information not widely published | Marginal impact to this service user group  |
| Pregnancy and Maternity         | Specific information not widely published | Marginal impact to this service user group  |
| Race                            | Business Intelligence<br>Census 2011      | The London Borough of Harrow has a diverse population.<br>There are approximately 70 different languages spoken in<br>the borough and 41% of the population come from black<br>and ethnic minority groups.  |
|                                 |   | Numerically residents of Indian origin account for the  |

|                     |  | highest number and proportion of all residents of working<br>age in Harrow, at 29 per cent (46,670). The White British<br>group follows closely behind, with 28.1 per cent (44,189)<br>Residents aged 65 and over- 14.1 per cent of Harrow's<br>residents are aged 65 and over of that group 43% are from<br>BME this needs to be acknowledged within the proposal.<br>Thus without demography growth service provision will<br>need to be reduced due to the effect of the lack of<br>appropriate support and exclusion of many BME groups.                           |
|---------------------|--|--|
| Religion and Belief | Business Intelligence<br>Census 2011                                   | <ul> <li>Christianity is Harrow's most common religion with 37.3 per cent (89,181).</li> <li>Harrow is ranked first nationally for people with Other Religions. Ninety nine per cent of people who follow other religions in Harrow are Asian/Asian British.</li> <li>95 per cent of Harrow's Jewish community come from the White ethnic groups</li> <li>Thus without demography growth service provision will need to be reduced due to the effect of the lack of suitable support and exclusion relating to culturally in appropriate service provision.</li> </ul> |
| Sex / Gender        | POPPI & PANSI Data 2014-2018<br>Care Act 2014<br>Business Intelligence | <ul> <li>Total population aged 18-64 predicted to have a learning disability will rise from 3,782 (2014) to 3,910 (2018)</li> <li>Total population aged 18-64 predicted to have a moderate physical disability will rise from 11,582 (2014) to 12,124 (2018)</li> <li>Total population aged 18-64 predicted to have a serious physical disability will rise from 3,326 (2014) to 3517 (2018)</li> </ul>  |

**YES** - If there is a risk of disproportionate adverse Impact on any **ONE** of the Protected Characteristics, continue with the rest of the template.

- **Best Practice:** You may want to consider setting up a Working Group (including colleagues, partners, stakeholders, voluntary community sector organisations, service users and Unions) to develop the rest of the EqIA
- It will be useful to also collate further evidence (additional data, consultation with the relevant communities, stakeholder groups and service users directly affected by your proposals) to further assess the potential disproportionate impact identified and how this can be mitigated.
- NO If you have ticked 'No' to all of the above, then go to Stage 6
- Although the assessment may not have identified potential disproportionate impact, you may have identified actions which can be taken to advance equality of opportunity to make your proposals more inclusive. These actions should form your Improvement Action Plan at Stage 6

## Stage 4: Further Consultation / Additional Evidence

6. What further consultation have you undertaken on your proposals as a result of your analysis at Stage 3?

| Who was consulted?<br>What consultation methods were used?   |                    |                    | What do the results show about the impact on different groups / Protected Characteristics?    | What actions have you taken to address the findings of the consultation? E.g. revising your proposals |  |  |
|--|--------------------|--------------------|---|---|--|--|
| If these proposals are accepted the need for<br>Consultation will be assessed at the point of<br>acceptance and mobilisation.  |                    | ed at the point of | Consultation will aim to ensure the impact on different groups/ Protected Characteristics     |   |  |  |
| Stage 5: Asse  | ssing Imp          | act                |   |   |  |  |
| <ul> <li>Stage 5: Assessing Impact</li> <li>7. What does your evidence tell you about the impact on the different Protected Characteristics? Consider whether the evidence shows potential for differential impact, if so state whether this is a positive or an adverse impact? If adverse, is it a minor or major impact?</li> </ul> |                    |                    |   |   |  |  |
| Protected<br>Characteristic  | Positive<br>Impact | Adverse Impact     | Explain what this impact is, how likely it is to happen and the extent of impact if it was to | What measures can you take to mitigate the impact or advance equality of opportunity?                 |  |  |

|  | ✓ | Minor<br>✓ | Major<br>✓ | occur.<br>Note – Positive impact can also be used to<br>demonstrate how your proposals meet the<br>aims of the PSED Stage 7  | E.g. further consultation, research, implement<br>equality monitoring etc<br>(Also Include these in the Improvement<br>Action Plan at Stage 6)                                    |
|--|---|------------|------------|--|---|
| Age (including<br>carers of<br>young/older<br>people)        |   |            | ~          | The existing service provides support to clients<br>of all ages but predominantly older people (over<br>65 population) and as such a reduction in<br>service is likely to have some impact on people<br>with this protected characteristic.<br>In addition, there is likely to be an impact on<br>staff with these protected characteristics.  | To explore whether the third sector can step<br>in to support where there are gaps within<br>service provision in line with other proposals<br>to work with the voluntary sector. |
| Disability<br>(including<br>carers of<br>disabled<br>people) |   |            | ~          | The existing service provides support to clients<br>with a disability and as such a reduction in<br>service is likely to have some impact on people<br>with this protected characteristic.<br>In addition, there is likely to be an impact on<br>staff with these protected characteristics.   | To explore whether the third sector can step<br>in to support where there are gaps within<br>service provision  |
| Gender<br>Reassignment                                       |   |            |            | With limited published information about gender<br>reassignment it is difficult to assess the impact<br>on this protected characteristic. The services<br>offered to Service users in Harrow would be<br>offered to people who had undergone gender<br>reassignment, but the impact is no greater on<br>this protected characteristic.   | To monitor potential impact, and work with voluntary sector and national organisations to try and mitigate impacts.   |
| Marriage and<br>Civil<br>Partnership                         |   |            |            | With limited published information about<br>marriage statistics in Harrow, it is difficult to<br>assess the impact on this protected<br>characteristic. The services offered to Service<br>users in Harrow would be offered to people who<br>were married, in a civil partnership, widowed<br>and single irrespectively, but the impact is no<br>greater on this protected characteristic. | To monitor potential impact, and work with<br>voluntary sector and national organisations to<br>try and mitigate impacts.   |
| Pregnancy and<br>Maternity                                   |   |            |            | With limited published information about pregnancy and maternity statistics in Harrow, it is difficult to assess the impact on this protected  |   |
