There is pressure for special educational needs (SEN) provision												
places, which will be alleviated in the medium term as additional												
places will become available from 2015 following successful TBNP												
applications in accordance with Harrow's Special Schools and SEN												
Placement Planning Framework. However, in light of the projections and in light of the Government's Special Educational Needs and	1,560		1,560	2,520	2,520	0	0	0	0	4,080	2,520	1,560

Bulge Classes The pupil numbers in Harrow have risen rapidly in recent year, particularly at primary intake level. This has given rise to the School Expansion Programme which is covered in other bids. However, until permanently expanded schools are available, the short term measure has been to provide 'bulge classes' in multiple schools across the	150		150	150		150	150		150	450	0	450		
borough. These are where an additional form of entry are placed in a particular year which then passes through the school without being followed by additional classes.

Primary Expansion Phase 3 - 5 schools Phase 3 will deliver 5 additional Reception forms of entry by September 2016 at expanded schools.	3,180					0			0	3,180		3,030		
Secondary Expansion The growth in demand for primary places will progress to secondary schools and it is projected that there will be a shortfall of Year 7 places from 2018. Additional capacity has been secured through the expansion of two schools, Bentley Wood and Whitefriars and the permanent location of Avanti House will contribute to an overall increase in places. In addition, a further 6 forms of entry has been secured through the successful free school bid opening on the Heathfield School site. However, there will still be a shortfall of places from September 2020 rising to approx. 13 forms of entry in September 2023.	2,625			3,650		3,650	5,250	2,625	2,625	11,525	0	11,528

Street Litter Bins: This funding is to support the provision and replacement of adequate numbers of on street litter bins, creating an environment where there are adequate numbers of bins provided to meet demand. The project would ensure that: • litter bins are of a consistent design • litter bins are fit for purpose and in an appropriate condition • the placement requirements for litter bins are reviewed so they are provided in the correct locations, particularly around i. Commercial & retail areas ii. Other areas of high footfall, such as transport hubs, and through routes iii. Main routes to schools iv. Secondary routes to schools v. Areas where people congregate, such as bus stops or on street benches The project would also allow for consideration of provision of bins to support 'recycling on the go' where appropriate	300	£000	300	£000	£000	£000	300	£000	300	900	£000	900
