

Appendix D

Controlled Parking Zones and Resident Parking Schemes

Priority list for financial year 2006/07 and 5 year Draft Borough Spending Plan Programme from April 2006 to March 2011

Seven main factors govern the programme: Implementation date of last review for this area (if applicable), staff availability, current implementation programme, funding, Council (Traffic and Road Safety Advisory Panel) meetings (4 per year), Environment and Transport Portfolio Holder decisions and favourable consultation results. Where considered appropriate reports and objections will be dealt with directly by the Portfolio Holder in order to speed up decision making.

The programme is also subject to change depending on other Council decisions, such as whether there is a Scrutiny Committee "call in", referrals to Council Cabinet, other priorities, workload and available resources as they emerge during the year.

All reviews will consider the need for on street business permits with the exception of Harrow Town Centre.

Prioritised by Target Completion Date	Scheme	Indicative Timescales
1.	Stanmore CPZ Review	Target completion: March 2006
2.	South Harrow Stage 2 Extension Review and Stage 3 (Dudley Gardens to Northolt Park Station, in principle stage).	Advertise traffic orders: Spring 06 Consider objections (if any): Summer 06 Target completion: Autumn 06
