

You will need to produce an Equality Impact Assessment (EqIA) if:

- You are developing a new policy, strategy, or service
- You are making changes that will affect front-line services
- You are reducing budgets, which may affect front-line services
- You are changing the way services are funded and this may impact the quality of the service and who can access it
- You are making a decision that could have a different impact on different groups of people
- You are making staff redundant or changing their roles

Guidance notes on how to complete an EqIA and sign off process are available on the Hub under Equality and Diversity. You must read the [guidance notes](#) and ensure you have followed all stages of the EqIA approval process (outlined in appendix 1). Section 2 of the template requires you to undertake an assessment of the impact of your proposals on groups with protected characteristics. Equalities and borough profile data, as well as other sources of statistical information can be found on the Harrow hub, within the section entitled: [Equality Impact Assessment](#) - sources of statistical information.

Equality Impact Assessment (EqIA)

Type of Decision:	<input checked="" type="radio"/> Cabinet <input type="radio"/> Portfolio holder <input type="radio"/> Other (state)	
Title of Proposal	Procurement of a 3G Artificial Grass Pitch at Bannister Sports Centre	Date EqIA created 19/11/18

EqIA approved by Directorate Equality Task Group (DETG) Chair	Name Dave Corby	Signature <input checked="" type="checkbox"/> Tick this box to indicate that you have approved this EqIA Date of approval 03/01/2019

1. Summary of proposal, impact on groups with protected characteristics and mitigating actions

(to be completed after you have completed sections 2 - 5)

a) What is your proposal?

It is proposed to proceed with the procurement of a contractor to install a 3G artificial grass pitch at Bannister Sports Centre funded by the Section 106 Contribution received by the Council to replace the playing fields lost as part of the development of the Harrow View West site, and external grant funding from the Football Foundation. The new facility will help to address the deficit in 3G artificial grass pitches identified by the Harrow Outdoor Sports Pitch Strategy, 2013-2023, and the Harrow Indoor Sports Facility Strategy, 2018-2026.

b) Summarise the impact of your proposal on groups with protected characteristics

The proposed procurement and installation of a 3G Artificial Grass Pitch will have a positive impact on all the protected characteristics as it will help to reduce the identified deficit in Harrow of 3G Artificial Grass Pitches. 3G Artificial Grass Pitches can be used for football matches and training throughout the year and in all weathers.

The design of the 3G Artificial Grass Pitch is in accordance with the FA Guide to 3G Football Turf Pitch Design Principles and Layouts. Disabled access has been carefully considered throughout the whole design and applied where appropriate. The intention is to provide a smooth transition to and from areas within the sports ground for use by people of all ages and abilities.

c) Summarise any potential negative impact(s) identified and mitigating actions

No potential negative impacts identified.

2. Assessing impact																																
You are required to undertake a detailed analysis of the impact of your proposals on groups with protected characteristics. You should refer to borough profile data , equalities data , service user information, consultation responses and any other relevant data/evidence to help you assess and explain what impact (if any) your proposal(s) will have on each group. Where there are gaps in data, you should state this in the boxes below and what action (if any), you will take to address this in the future.		What does the evidence tell you about the impact your proposal may have on groups with protected characteristics? Click the relevant box to indicate whether your proposal will have a positive impact, negative (minor, major), or no impact																														
Protected characteristic	For each protected characteristic, explain in detail what the evidence is suggesting and the impact of your proposal (if any). Click the appropriate box on the right to indicate the outcome of your analysis.	Positive impact	Negative impact		No impact																											
			Minor	Major																												
Age	<p>The resident population of Harrow according to the 2011 Census was 239,100. Census data by age for the whole borough was as follows:</p> <table border="1" style="width: 100%; border-collapse: collapse;"> <thead> <tr> <th>Age Group</th> <th>Total</th> <th>Percentage</th> </tr> </thead> <tbody> <tr> <td>0-4 year olds</td> <td>15,916</td> <td>4%</td> </tr> <tr> <td>5-17 year olds</td> <td>38,746</td> <td>16%</td> </tr> <tr> <td>18-24 year olds</td> <td>21,435</td> <td>9%</td> </tr> <tr> <td>25-49 year olds</td> <td>72,703</td> <td>30%</td> </tr> <tr> <td>50-59 year olds</td> <td>44,579</td> <td>19%</td> </tr> <tr> <td>60-74 year olds</td> <td>29,430</td> <td>12%</td> </tr> <tr> <td>75-89 year olds</td> <td>14,641</td> <td>6%</td> </tr> <tr> <td>90 years old</td> <td>1,606</td> <td>1%</td> </tr> </tbody> </table>	Age Group	Total	Percentage	0-4 year olds	15,916	4%	5-17 year olds	38,746	16%	18-24 year olds	21,435	9%	25-49 year olds	72,703	30%	50-59 year olds	44,579	19%	60-74 year olds	29,430	12%	75-89 year olds	14,641	6%	90 years old	1,606	1%	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

	Under 16	17 to 24	25 to 64	65 plus	Undisclosed																				
Bannister Sports Centre	56.73%	8.77%	21.64%	7.02%	5.85%																				
Disability	<p>There are approximately 15,000 people aged 16 to 64 with moderate or serious physical disability living in Harrow and this number is predicted to increase to 16,000 by 2020. These trends are similar to those predicted for London with the largest proportion increases being in the 55 to 64 age group (Harrow Joint Strategic Needs Assessment 2015-20). The total population aged 18-64 in Harrow predicted to have a learning disability in 2017 is 3,466 (Information</p>				<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>																	

	<p>taken from: www.pansi.org.uk).</p> <p>The estimated prevalence of special educational needs in Harrow has remained consistent over time (2.6%) and is lower than the London (2.7%) and England average (2.8%). The number per 1,000 of children with moderate learning disabilities in Harrow is lower than the London average but higher for children with severe learning disabilities.</p> <p>Approximately 180 children are reported to be deaf in Harrow and known to services. The number of blind children and young people between 0 and 17 known to Harrow council (i.e. registered) is 20 and the number who are partially sighted is 30 (figures correct as of 2013/14).</p> <p>The 2011 census showed there were 24,620 carers in Harrow, an increase of over 4,000 (almost 20%) from ten years earlier. The reasons for providing care vary and can include more than one reason. In the Harrow Carers' Survey, the 3 out of 5 carers were caring for someone with a physical disability. 45% of Harrow carers were caring for an older person which is significantly higher than the national average. Around 1 in 5 were caring for someone with a mental health problems and a similar proportion for someone with a learning disability. It is difficult to estimate the number of young carers although the 2011 Census shows 2,272 self-declared young carers aged 0 – 24 years old in Harrow. The vast majority of these are hidden, i.e. not known to social care or receiving any support (Harrow Joint Strategic Needs Assessment 2015-20).</p> <p>At Bannister Sports Centre in 2018, 3 Everyone Active card holders have indicated that they have a disability.</p> <p>The proposed 3G Artificial Grass Pitch would provide an enhanced facility for those with a physical disability. Programming will allow for an increase in the ability to put on specific events.</p> <p>Disabled access has been carefully considered throughout the whole design and applied where appropriate. The intention is to provide a smooth transition to and from areas within the sports ground for use by people of all ages and abilities.</p>				
--	---	--	--	--	--

<p>Gender reassignment</p>	<p>The only data Harrow currently has on Gender Reassignment is via the Analysis of demand from housing applicants (via Locata): 1 (0.02%) housing applicant has indicated that they are transgender. (Data as at April 2014).</p> <p>Whilst there is limited data available regarding the number of people in Harrow who are gender reassigned, there is no evidence that the proposals to increase charges at the Great Barn, which have been benchmarked against neighbouring facilities to ensure that the proposed charges are competitive with these venues, will have a particular impact on those who are gender reassigned as the charges will be consistent for all hirers of the venue.</p> <p>Statistics broken down by gender reassignment for members of Bannister Sports Centre are not currently available.</p> <p>The proposed 3G Artificial Grass Pitch will not have an impact on this characteristic</p>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
<p>Marriage and Civil Partnership</p>	<p>Census data: Harrow has a very high percentage of married couples, with 53.7% of residents aged 16 and older declaring they were in a marriage in 2011. This is above the national level of 46.6%. There was a 27% increase in the number of married people living in Harrow between 2001 and 2011 (Office for National Statistics, 2001 and 2011). Between their inception and January 2012, 107 civil partnership ceremonies took place in Harrow.</p> <p>Statistics broken down by marriage and civil partnership for members of Bannister Sports Centre are not currently available.</p> <p>The proposed 3G Artificial Grass Pitch will not have an impact on this characteristic</p>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
<p>Pregnancy and Maternity</p>	<p>Census data: There has been a 32% (+3,900) increase in 0-4 year olds since 2001. There are pockets of high concentration in central and south-west Harrow.</p> <p>Statistics broken down by pregnancy and maternity for members of Bannister</p>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>

	<p>Sports Centre are not currently available.</p> <p>The proposed 3G Artificial Grass Pitch will not have an impact on this characteristic</p>																																							
<p>Race/ Ethnicity</p>	<p>Census data (2011) shows the ethnic breakdown for Harrow to be as follows:</p> <table border="1" data-bbox="436 391 1171 821"> <thead> <tr> <th>Ethnic Group</th> <th>Total</th> <th>Percentage</th> </tr> </thead> <tbody> <tr> <td>White British</td> <td>73,826</td> <td>31%</td> </tr> <tr> <td>White Other</td> <td>27,165</td> <td>11%</td> </tr> <tr> <td>Mixed</td> <td>9,499</td> <td>4%</td> </tr> <tr> <td>Asian or Asian British</td> <td>101,808</td> <td>43%</td> </tr> <tr> <td>Black or Black British</td> <td>19,708</td> <td>8%</td> </tr> <tr> <td>Arab and Other Group</td> <td>7,050</td> <td>3%</td> </tr> </tbody> </table> <p>The largest ethnic groups for members of Bannister Sports Centre are as follows:</p> <table border="1" data-bbox="430 928 1523 1206"> <thead> <tr> <th></th> <th>White British</th> <th>Asian Other</th> <th>Indian</th> <th>Arabic</th> <th>Unknown</th> <th>Not Willing to Supply</th> </tr> </thead> <tbody> <tr> <td>Bannister Sports Centre</td> <td>7.60%</td> <td>2.63%</td> <td>1.75%</td> <td>1.17%</td> <td>72.22%</td> <td>8.19%</td> </tr> </tbody> </table> <p>The proposed 3G Artificial Grass Pitch will not have an impact on this characteristic</p>	Ethnic Group	Total	Percentage	White British	73,826	31%	White Other	27,165	11%	Mixed	9,499	4%	Asian or Asian British	101,808	43%	Black or Black British	19,708	8%	Arab and Other Group	7,050	3%		White British	Asian Other	Indian	Arabic	Unknown	Not Willing to Supply	Bannister Sports Centre	7.60%	2.63%	1.75%	1.17%	72.22%	8.19%	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>

Religion or belief	<p>Harrow is Britain's most religiously diverse community and enjoys the Country's highest density of Gujarati Hindus and Sri Lankan Tamils, alongside significant Muslim, Jewish and Christian communities. The Greater London Authority (GLA) Diversity Indices rank Harrow seventh highest nationally for ethnic diversity and second for religious diversity.</p> <p>Statistics broken down by religion or belief for members of Bannister Sports Centre are not currently available.</p> <p>The proposed 3G Artificial Grass Pitch will not have an impact on this characteristic</p>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>						
Gender	<p>Census data: In 2011, 49.4% of Harrow residents were male and 50.6% are female. This is very similar to the national profile, but the number of males in Harrow has slightly increased since 2001 (Office for National Statistics, 2001 and 2011).</p> <p>The gender break down for members of Bannister Sports Centre is as follows:</p> <table border="1" data-bbox="430 767 1001 959"> <thead> <tr> <th></th> <th>Female</th> <th>Male</th> </tr> </thead> <tbody> <tr> <td>Bannister Sports Centre</td> <td>37.13%</td> <td>57.31%</td> </tr> </tbody> </table> <p>Out of 32 affiliated clubs that play in Harrow 2 are listed as having adult ladies teams.</p> <p>The proposed 3G artificial pitch would enable woman's only sessions to be delivered to provide a positive impact on this characteristic</p>		Female	Male	Bannister Sports Centre	37.13%	57.31%	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
	Female	Male									
Bannister Sports Centre	37.13%	57.31%									
Sexual Orientation	<p>Although sexual orientation is a protected characteristic under equalities legislation, there is no robust data on the numbers of lesbians, gay men and bisexuals in the population as no national census has ever asked people to define their sexuality. The Government estimates that 5-7% of the population are</p>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>						

	<p>lesbians, gay men or bisexual. Stonewall, a UK charity supporting LGB rights, agrees with this estimate.</p> <p>There is debate about whether same sex partnerships registrations can be used as a proxy measure for sexual orientation, as not all LGBT people will be in a relationship let alone have a civil partnership.. Between December 2005, when the Civil Partnership Act came into force, and the end of 2013, there have been 71 civil partnerships in Harrow. On 29 March 2014, same sex couples have been allowed to marry. There is no data yet on how many marriages have taken place locally or how many of these are conversions from civil partnerships.</p> <p>Statistics broken down by sexual orientation for members of Bannister Sports Centre are not currently available.</p> <p>The proposed 3G Artificial Grass Pitch will not have an impact on this characteristic</p>				
--	--	--	--	--	--

2.1 Cumulative impact – considering what else is happening within the Council and Harrow as a whole, could your proposals have a cumulative impact on groups with protected characteristics?

Yes No

If you clicked the Yes box, which groups with protected characteristics could be affected and what is the potential impact? Include details in the space below

2.2 Any other impact - considering what else is happening nationally/locally (national/local/regional policies, socio-economic factors etc), could your proposals have an impact on individuals/service users, or other groups?

Yes No

If you clicked the Yes box, Include details in the space below

3. Actions to mitigate/remove negative impact

Only complete this section if your assessment (in section 2) suggests that your proposals may have a negative impact on groups with protected characteristics. If you have not identified any negative impacts, please complete sections 4 and 5.

In the table below, please state what these potential negative impact (s) are, mitigating actions and steps taken to ensure that these measures will address and remove any negative impacts identified and by when. Please also state how you will monitor the impact of your proposal once implemented.

State what the negative impact(s) are for each group, identified in section 2. In addition, you should also consider and state potential risks associated with your proposal.	Measures to mitigate negative impact (provide details, including details of and additional consultation undertaken/to be carried out in the future). If you are unable to identify measures to mitigate impact, please state so and provide a brief explanation.	What action (s) will you take to assess whether these measures have addressed and removed any negative impacts identified in your analysis? Please provide details. If you have previously stated that you are unable to identify measures to mitigate impact please state below.	Deadline date	Lead Officer

4. Public Sector Equality Duty

How does your proposal meet the Public Sector Equality Duty (PSED) to:

1. Eliminate unlawful discrimination, harassment and victimisation and other conduct prohibited by the Equality Act 2010
2. Advance equality of opportunity between people from different groups
3. Foster good relations between people from different groups

Include details in the space below

The proposed procurement and installation of a 3G Artificial Grass Pitch will help to ensure that the future 3G Artificial Grass Pitch needs of all the community will be met, and will be available for use by the whole community including all ethnic and religious groups, and by all the other protected characteristics listed above. The aim is to grow participation in football across all sectors of the game including mini-soccer, youth football, girls and women's football, and disability football. The aim of the football development programme for the new facility will be to fit in with work and lifestyle patterns of participants.

The proposed 3G Artificial Grass Pitch would have a potential positive impact on people across all the protected characteristics as it will help to reduce the deficit in the number of 3G Artificial Grass Pitches in Harrow.

5. Outcome of the Equality Impact Assessment (EqIA) click the box that applies

Outcome 1

No change required: the EqIA has not identified any potential for unlawful conduct or disproportionate impact and all opportunities to advance equality of opportunity are being addressed

Outcome 2

Adjustments to remove/mitigate negative impacts identified by the assessment, or to better advance equality, as stated in section 3&4

Outcome 3

This EqIA has identified discrimination and/ or missed opportunities to advance equality and/or foster good relations. However, it is still reasonable to continue with the activity. Outline the reasons for this and the information used to reach this decision in the space below.

Include details here
