	Agreed Charges 2021/22			Proposed Charges 2022/23				Basis for charging
The Care Act 2014 established a universal deferred payment scheme from April 2015 so that service users will not have to sell their home in their lifetime to pay for their care. The costs detailed below are calculated to ensure full cost recovery.

Care & Support (Charging and Assessment of Resources) Regulations 2014

The Care Act will introduce a single legal framework for charging for care and support (section 14-17), including discretion as to whether or not to charge. Where a local authority arranges care and support to meet a service users needs, it may charge the adult, except where the local authority is required to arrange care and support free of charge.

The principle is that service users should only be required to pay what they can afford. Regulations determine the maximum amount a local authority can charge.

Only in care homes, where the financial assessment identifies that a service users resources exceed the capital limits, is the local authority precluded from paying towards the costs of care.

The upper financial limit is current set at £23,250. Below this level a person can seek means-tested support from the local authority. Where a person's resources are below the lower capital limit of £14,250 they will not need to contribute to the cost of their care and support from their capital. The Council applies a 'tariff' or graduated scale to reflect income received on capital and assets held between the upper and lower limits. These limits are set by the Department for Work and Pensions and the Council will be notified ahead of the 1st April 2021 should these change.
