Section 2 – Report

Harrow Borough Based Partnership brings together our NHS organisations, Harrow Council, our GPs, and local Voluntary & Community Sector. We strive

to support each other and our communities as equal partners focussing on better health and wellbeing for all.

The partnership has agreed their mission as:

“Working with children, families and communities in Harrow to support better care and healthier lives”.

The Harrow Borough Based Partnership operates within the Integrated Care System for North West London and works to both support delivery of the wider system objectives. We do this alongside being clear about the needs of Harrow; what is unique about our borough, what the health needs of our population are and how as a local partnership, we become the engine room for delivery and service reform for Harrow citizens.
