

We the residents of the uncontrolled section of Woodway Crescent are experiencing parking problems due to displaced parking from nearby properties situated within the existing zone (S) operational 11am to 12 noon Monday to Friday.

Cars are left in the crescent for several weeks at a time, some appear to be owned by car traders, some are used for long term storage.

This is making it very difficult for us living in the uncontrolled zone to park, we are not able to park anywhere in the surrounding streets on in the controlled part of the crescent, as we can not apply for zone (S) parking permits.

We request the council to extend the existing zone (S) to include the full length of Woodway Crescent.
