

The Community Safety Strategy outlines Safer Harrow's three-year plan on how we will work to create a borough that is safe and clean, ensuring Harrow remains one of the safest boroughs in London.

There are 6 priority areas outlined in the Strategy:

- Tackling and Reducing Violence Against Women and Girls (VAWG)
- Reducing Burglary / Motor Vehicle Crime / Robbery
- Reducing the Number of Violent Incidents in the Borough
- Tackling and Reducing Offences and Harm Caused by Drugs
- Tackling Hate Crime
- Perception of Crime and Anti-Social Behaviour

The implementation of this strategy is delegated under each of these priority areas in the form of sub-groups via the **Community Safety Delivery Plan**.

Each sub-group will:

- Be chaired by a Senior Responsible Officer (who attends Safer Harrow) – this will be the direct link between Safer Harrow and the delivery of each priority area.
- Create an Delivery Plan which appropriately outlines actions and measures to achieve tangible outcomes.
- Identify relevant partners and subject matter experts who will sit on the sub-group, but will be supported by an officer for the running and management of their sub-group.
- Meet monthly to ensure actions are progressing against their delivery plan.
- Report back to Safer Harrow on a quarterly basis.

# Delivery Plan Sub-Group Reporting

LONDON BOROUGH OF  
**HARROW**
