Subject: FW: WK/000732235 - TEN For 27/09/2024 to 28/09/2024 - Value Windows Ltd

Dear Ms Jackson

Further to your application for a TEN (above) I am writing to inform you that as Team Leader Environmental Protection I am putting in an objection to this in regard to Public Nuisance and the noise issues encountered at the previous event you ran.

I am not satisfied that you have enough in place in order to mitigate the noise issues that we encountered.

Officers also attended to monitor the previous event and could clearly hear music through the walls of the building in the street at what was an unacceptable level.

I also have information from Planning that this building does not have any planning permission for events of this nature to go ahead and that you are aware of that fact.

In light of the above, I am objecting to the event going ahead.

I look forward to your response.

Yours sincerely

Kosta Mirkovic

Team Leader – Environmental Protection
