Please state the ground(s) for review (please read guidance note1)

There is a history of noise complaints from the property during regulated entertainment between December 200 and June 2006.

Please provide as much information as possible to support the application (please read guidance note 2)

The applicant has not adequately stated in the application's operating schedule how it is intended to prevent noise from patrons, music and amplified vocals disturbing local residents.

For example, doors and windows closed to be kept closed during regulated entertainment.

Upgrading of single glazing to double-glazing.

Details on the location of speakers within the premises i.e. facing inwards towards the dance floor.

The provision of noise limiters for stereo's or amplifiers

Monitoring and regular patrols of the perimeter of the premises to ensure noise no noise break out occurs.

An increase in 'drinking up time' i.e. more time between the last sale of alcohol and closing time to allow people to 'sober up' and arrange transport home whilst still inside the premises.

Evidence has not been provided that the premises are adequately soundproofed to prevent noise from causing nuisance to local residents.

It would be advised that if the variation were granted the following conditions be imposed:

Doors and windows to be kept closed while regulated entertainment is in progress.

Glazing is upgraded from single glazing.

Air conditioning and / or mechanical ventilation should be in use while regulated entertainment is in progress.

Noise and vibration shall not emanate from the premises so as to cause nuisance.
