# **Section 1: Summary**

This report sets out the monitoring of Council's revenue and capital budgets.

## **Recommendations:**

- (a) note the current revenue and capital monitoring position at the end of the third quarter for 2006-2007;
- (b) approve the virement of capital budgets as set out in appendix 8

## <u>Reason</u>

To monitor effectively the Council's revenue and capital budgets. The budget represents the financial resources approved to implement the Council's corporate priorities. If the budget monitoring to date is not approved the budget process will be less transparent and less robust. Budget monitoring is particularly critical for 2006/2007 given the low level of reserves and the additional savings programme introduced at Cabinet on 3 August 2006.

# Section 2: Report

## Brief Background

- 1. This is the third quarter budget monitoring report for 2006-2007. Use of resources, both financial and staffing, and financial implications and potential budget risks are integral to this report.
- 2. This monitoring report shows that there are pressures within Directorates, which are being actively managed. Nevertheless the Council is now forecasting a small overspend in 2006-2007, which will further reduce balances. Therefore action must continue for the remainder of the year and further advice has been issued to all managers and staff.
- 3. Financial risks also remain in relation to potential litigation and bad debts. A Risk and Opportunities Register has been developed to provide ongoing recognition of these issues and assess the potential impact on the budget for the year and general fund balances.

#### Issues to be determined

4. The budget represents the financial resources approved to implement the Council's corporate priorities. Budget monitoring is particularly critical for 2006-2007 given the low level of reserves and the additional savings programme introduced at Cabinet on 3 August 2006. If the budget monitoring to date is not approved the budget process will be less transparent and less robust.

## <u>Options</u>

5. To ensure a transparent and robust budget process there is no alternative to effective monitoring of the Council's revenue and capital budgets.

## Equalities Impact

6. Budget monitoring reviews the resources across the whole Council and these resources contribute to the delivery of the corporate equalities plan, achievement of level 3 of the equalities standard, and implementation of the race equality scheme.

#### Legal Implications

7. The Council has a statutory duty to make sure that the arrangements for the administration of its financial affairs is adequate and effective, including arrangements for risk management

# Community Safety (Section 17 Crime and Disorder Act 1998)

8. Not applicable.

#### Revenue Budget Monitoring 2006-2007: Commentary

- 1. The Council has a gross revenue budget of £510m, including school expenditure. Managing a budget this size is complex and there are inevitably under and overspends which arise during the year. It is important to take management action when variances are identified.
- 2. The forecast is analysed and explained below:

|   | Outturn position as<br>at 3 <sup>rd</sup> Quarter<br>£m |
|---|---|
| Corporate                                   | 0.5   |
| Business Development and Chief Exec. Office | -0.1  |
| People First                                | 0.9   |
| Urban Living                                | 0.1   |
| Capital Financing/Interest on balances      | -0.1  |
| LPSA/LABGI                                  | -0.1  |
| Total                                       | 1.2   |
| Delete Contribution to reserves             | -0.9  |
| Net position                                | 0.3   |

## Delivery of Savings

The original 2006-2007 budget included £10m of allocated savings. Further savings were agreed in August to cover unallocated items in the budget and new pressures totalling £9m. This report shows that 84% of the savings have been achieved.

The August plan included a number of cross cutting savings. The following items have been allocated out to directorates:

|                                       | £000  |
|---------------------------------------|-------|
|                                       |       |
| Review of Senior Management Structure | 0.250 |
| Review of PA and Admin. Staff         | 0.500 |
| Harrow Saves/recruitment              | 0.207 |
| Duplicate Payments                    | 0.050 |
| Total                                 | 1,007 |

All Directorates have been retaining vacant posts, reducing agency staff and applying the Harrow Saves framework in order to contribute to these targets. The net effect of their actions is analysed by Directorate.

## CORPORATE (forecast outturn overspend £460k)

| Item                  | £000  |
|-----------------------|-------|
| Telephone charges     | 0.300 |
| Cross cutting savings | 0.160 |
|                       |       |
| Sub total             | 0.460 |

The Corporate budgets and issues are of a strategic nature, the impact of which falls across all of Harrow's directorates.

#### Telephone Charges

A council wide issue regarding telephone budgets still stands as telephone budgets are insufficient compared to projected costs. Telephone costs have also risen because of the increase in calls being made to mobile phones.

Staff contributions to use of telephones and the internet has been increased from £10 to £15 from January 2007.

This year's estimated overspend will be partially offset by savings achieved in the HITS salary spend, which due to being in a restructure for part of the year has meant that not all the HITS posts were filled.

## Corporate Savings Plan

There are unachieved savings of £160k in respect of cross cutting items in the August savings plan, namely unpaid leave and staff parking.

## **BUSINESS DEVELOPMENT (forecast underspend £30k)**

| Item                                | £000   |
|-------------------------------------|--------|
|                                     |        |
| Audit fees                          | 0.065  |
| Salaries                            | -0.065 |
| Health & Safety income              | 0.010  |
| PPP                                 | -0.140 |
| Revenue staff costs                 | 0.190  |
| Revenue Income recovery             | -0.200 |
| Cross cutting savings               | 0.110  |
| Chief Executive reduced expenditure | -0.030 |
|                                     |        |
| Sub total                           | -0.060 |

The Business Development budget has had to bear substantial cuts to the spending budget to ensure policy savings are achieved. A number of budget pressures have been identified and associated management actions are explained in more detail below:

## Financial & Business Strategy

The additional cost of Audit Commission fees of £65,000 will be offset by identified salary underspends in the Financial and Business Strategy department.

Health & Safety are projecting an income under recovery of £15,000, but the effect of this will be minimized through expected salary underspends of £5,000 in the area.

## People, Performance & Policy

PPP have effectively managed vacancies as well as closely monitored budget spend. This level of robust budget management has meant the department is able to offer savings to the value of approximately £135,000.

#### **Business Services**

There is risk around debt management savings, which is actively being managed by increased cash-flow interest and implementing management action plan.

Print savings, which are reflected in the budget, of £100,000 are expected to be achieved through the new copier contract with Annodata, which will generate a rebate for £100,000 for the first year.

Revenues are reporting an overspend, £190,000, on staff expenditure, however this will be offset by £200,000, over recovery of income achieved with regard to court applications.

## **BTP/HITS**

The main risk areas for BTP and HITS are:

- Telephony savings for which management action is underway to contain within the overall HITS budget. This is expected to be contained through the under spend on HITS salaries which have resulted, as previously mentioned, due to the service having had a restructure during the year.
- Access Harrow, the council's new One Stop Shop has managed its funding requirements though a number of measures. One of these has been to critically review the level of resources required and reduce wherever feasible. Also a review is underway to capitalise salary costs where appropriate as part of the BTP project. In particular, staff time spent advising on the SAP project in service areas such as Finance, Audit, HR, Payroll and Exchequer Services, is being assessed with a view to capitalizing the relevant proportion of staff costs. This capitalization of staff time will cover Access Harrow's funding gap.

Business Development has been reallocated cross cutting savings amounting to £110,000, in line with the value of controllable budgets held. This saving will be managed through detailed salaries monitoring including the reduction in temporary staff as well as expenditure which has been curtailed to essential spend only.

# CHIEF EXECUTIVE (forecast underspend £30k)

The Chief Executive directorate has absorbed a number of changes to its budgets and services, which are set out below:

- The council's Corporate Governance function has been downgraded and slimmed down by the deletion of a separate Corporate Governance section. Decision was made not to replace the current director upon his retirement, with the Director of Legal Services having taken over this responsibility.
- The communication unit has been scaled down in terms of both staff and the service it provides. It is now only able to support the Council's website, PR and press functions, with limited capability to produce the 'Harrow People'.
- All non-core activities for Legal and Democratic services have ceased during 2006 in implementing the August cabinet savings. Land charges are on target to reach budgeted income assuming there are no major changes in the Housing Market.
- The Chief Executive Directorate is confident it can achieve its share of redistributed cross cutting savings of £30,000 through careful management of vacant positions and streamlining various services. This, together with ensuring expenditure is reduced to essential spend only means the directorate is projecting a further £30,000 saving.

## PEOPLE FIRST (forecast outturn overspend £932k)

Since the second quarter budget monitoring position was reported to Cabinet, considerable effort has been made across People First to identify and implement further savings in order to contain expenditure within the overall cash limit. Also in the third quarter the cross cutting items in the August savings plan have been redistributed resulting in £625k additional savings for People First. Whilst across the service significant additional reductions in expenditure have been implemented such as ceasing all book stock expenditure (saving of £50k), there have also been further pressures highlighted, which has increased the overall overspend since the previous period to £341K. The additional pressures, which have been identified relate to Asylum Seekers £300k and Adult Community Care placement and SLA costs £500k. All possible action is being taken to contain expenditure as far as possible and only essential expenditure is being incurred.

The position across each of the service areas is as follows:

|                               | Current | Forecast | Variance | Variance |
|-------------------------------|---------|----------|----------|----------|
|                               | Budget  | Outturn  | Period 9 | Period 6 |
|                               |         | Period 9 |          |          |
|                               | £000    | £000     | £000     | £000     |
|                               |         |          |          |          |
| Cross Cutting Savings         | -625    | 0        | 625      | 0        |
| Children's Services           | 35,700  | 36,410   | 710      | 715      |
| Community Care                | 44,405  | 45,129   | 724      | 119      |
| Lifelong Learning and Culture | 10,584  | 10,418   | -166     | 0        |
| Strategy                      | 8,492   | 8,491    | -1       | 83       |
| Schools                       | 8,929   | 8,929    | 0        | 0        |
| Funding re PCT pressures not  | 0       | -860     | -860     | -326     |
| allocated above               |         |          |          |          |
| Harrow Saves                  |         | -100     | -100     | 0        |
|                               |         |          |          |          |
| Total                         | 107,485 | 108,417  | 932      | 591      |

## Children's Services

| Item   | £000   |
|--|--------|
| SEN Transport and Special School Placements    | 0.449  |
| Asylum Seekers                                 | 0.715  |
| External barristers                            | 0.150  |
| Service Management and underspends on salaries | -0.478 |
| Early Years                                    | -0.401 |
| Looked After Children Placements               | 0.210  |
| Children with Disabilities                     | 0.065  |
| Sub total                                      | 0.710  |

- The position on Asylum Seekers has worsened by approximately £300k as provision has to be made for previous years claims. There is still some risk around Asylum Seeker claims with the Home Office claiming that we owe them £0.6m for claims relating to 2002/2003 to 2004/2005 but at the same time offering us nearly £1m for the special circumstances claim for 2005/2006. Progress is being made to reduce our liability in this area and the Home Office have already reduced the claim from £1.4m to £0.6m.
- Additional expenditure giving an adverse variation of £167k on SEN Transport. A meeting is to be arranged with Urban Living colleagues to understand reasons for this and to try to contain it.
- The leaving care service is now anticipated to come in on budget rather than underspending by £150k.
- Based upon expenditure to date and potential further cases the external barrister costs are now anticipated to be £150k over the budget rather than £200k.

• Savings in salary and other costs re Harrow saves have been identified in a number of areas including Education Welfare Service, Educational Psychology Service, CAMHS and Children and Families.

## **Community Care**

| Item   | £000   |
|--|--------|
| Service Management and underspends on salaries | -0.848 |
| Care Management                                | 0.093  |
| Independent Sector Purchasing Budgets          | 1,668  |
| Drugs and Alcohol                              | -0.133 |
| Provided Services                              | -0.056 |
| Sub total                                      | 0.724  |

- Increased expenditure £300k on block contracts for Learning Disability residential placements.
- Reduction in the saving for home care of £200k due to the introduction of a weekly cap and estimated implementation date of 26 February 2007.
- Delay in the introduction of day care charging (included in Feb 2006 budget) resulting in further income of £75k not now being achieved in 2006/2007.
- Increased expenditure on mental health placements of £201k.
- The Learning Disability action plan has only delivered savings of £135k to date compared with the previously forecast position of £250k.
- There are considerable savings on salary budgets, which have been reported across the service.
- The overall position on Older People services has improved as a result of action taken to contain expenditure as much as possible.

# Lifelong Learning & Cultural Development

| Item                | £000   |
|---------------------|--------|
| Arts and Leisure    | -0.063 |
| Area Services       | -0.050 |
| Cluster Development | -0.040 |
| Service Management  | -0.078 |
| Libraries           | -0.050 |
| Lifelong Learning   | -0.020 |
| Teachers Centre     | 0.135  |
| Sub total           | -0.166 |

- The overspend at the Teachers Centre has been reduced and is now anticipated to be £135k. Work continues to try to find ways of reducing expenditure and maximizing income to limit the impact.
- An allowance has been made to cover the purchase of operational assets at the Arts Centre. It has now been assumed that the £103k requiring write off will be funded from the bad debt provision.

- There are underspends on salary budgets which have assisted in the more favourable overall position.
- Further savings related to book stock purchases and extended schools have been found totalling £90k.

# <u>Strategy</u>

Overall position is anticipated to be in line with the budget.

## <u>Schools</u>

- It has not been possible to forecast the latest position on schools as the upload from the schools systems to the Authority is still not working following the implementation of ERP.
- The position as at the end of August was that there would be a drop in school balances of £2.1m. The balances at 31 March 2006 were £8.7m revenue and £1.3m capital.

#### PCT Pressures

 As part of the August 2006 savings plan a sum of £1,500 was identified to cover pressures resulting from action taken by the PCT and clients no longer eligible for continuing care. Whilst some of this sum was allocated to specific budgets the remainder was not allocated and is available to support the overall position.

#### Harrow Saves

• It is anticipated that further savings totalling £100k will be found from budgets as a consequence of action taken from Harrow Saves. As yet the budgets have not been reduced across the specific departments.

## URBAN LIVING (forecast overspend £55k)

The efforts of staff throughout UL and in particular at Head of Service, Group Manager, Service Managers, Senior Professional, Team leaders and Operational managers have been outstanding and clearly focused on achievement of the UL directorate outturn target.

All possible actions have been taken to enable Urban Living to achieve its outturn target. There are significant risks and pressures as we enter the final quarter of the year. Performance is being, and will continue to be, actively managed to ensure Urban Living remains on track. This includes carefully monitoring of any emerging opportunities and risks that may arise during this final quarter.

The savings approved in February 2006 were built into the budgets at the start of the financial year. Further savings were identified during August as part of the Recovery Plan and these have also being factored into the team targets. Also in the third quarter the cross cutting items in the August savings plan have been redistributed resulting in £242k additional savings for Urban Living. This saving will be managed through detailed salaries monitoring, careful management of vacant positions including the reduction in temporary staff as well as expenditure,

which has been curtailed to essential spend only. With the exception of cross cutting savings and a couple of the smaller savings schemes identified in August, Urban Living is currently on track to deliver its savings.

The table below shows the full year budget and full year forecast figures by section. The figures include the £242k of additional savings.

|   | Current | Forecast | Variance |
|---|---------|----------|----------|
|   | Budget  | Outturn  | Period 9 |
|   | £000    | £000     | £000     |
|   |         |          |          |
| Community Safety                        | 2,742   | 2,692    | -50      |
| Public Realm Infrastructure             | 10,654  | 10,654   | 0        |
| Public Realm Services                   | 22,260  | 22,260   | 0        |
| Environment Services Total              | 35,656  | 35,606   | -50      |
| Housing Services                        | 3,576   | 3,526    | -50      |
| Planning Services                       | 1,994   | 2,069    | 75       |
| Property & Facilities Services          | 2,258   | 2,258    | 0        |
| Property Services Total                 | 7,828   | 7,853    | 25       |
| Strategy & Business<br>Support Services | 9,402   | 9,482    | 80       |
| Total (excl HRA)                        | 52,886  | 52,941   | 55       |
| Housing Revenue Account                 | -234    | -1241    | -1,007   |
| (ringfenced) to Non-GF                  | -234    | -1241    | -1,007   |

The Housing Revenue Account underspend is expected to arise in the main from the release of general contingencies (£390k) and bad debt provision (£100k), lower than expected charges for capital (£366k) and costs falling below budgets in a variety of budgets (£151k). This underspend will accrue to HRA reserves and does not affect the Council General Fund.

## Community Safety

| Item   | £000   |
|--|--------|
| Additional under spend to previous predictions on salaries due to vacant posts and reduction in agency staffing levels | -0.050 |
| Sub total  | -0.050 |

Community Safety remains on target to achieve its savings for the year.

The street warden service is disbanded and staff have been re-deployed or made redundant.

The budget includes significant increases in the income through parking enforcement due to improvements in on-street enforcement and ticket processing systems and increased use of CCTV enforcement to provide an enhanced level of enforcement activity. Whilst it is difficult to forecast with accuracy due to seasonal variations and uncontrollable effects, e.g. inclement weather, the service is currently forecasting under achievement of budgeted income of £170k, this is offset by savings of £220k within the service from vacant posts and underspend on equipment. This will need very careful monitoring and management.

All other savings targets remain on track but are being carefully monitored to ensure this position is maintained. Forecast is currently maintained with a predicted additional under spend on salaries due to vacant posts and reduction in agency staffing levels

## Public Realm Infrastructure

| Item                 | £000   |
|----------------------|--------|
| Highways Maintenance | -0.200 |
| Car Parking Income   | 0.200  |
|                      |        |
| Sub total            | 0.000  |

Significant reductions of £1.973m have been built into the budget and forecast; action plans are in place to deliver these reductions/savings. The capital programme will provide investment in the year and this is helping us to reduce revenue-funded maintenance this year. It should be noted that the capital programme is covering the severity of this reduction and this is not sustainable.

The budget includes significant increases in the parking income we are expected to recover this year. There had been a slow start to the year, in particular, June and July figures were disappointing with the 'heat wave' and a drop in shopping trips appearing to be contributory factors. However, figures did stabilise for a period but failed in any significant way to improve in the run up to Christmas. Whilst it is difficult to forecast with accuracy the income that will be generated, it will continue to be monitored carefully by the parking team. Current forecast is for £200k under recovery, however, this will be compensated by further reductions in Highways day-to-day maintenance.

#### Public Realm Services

| Item                     | £000   |
|--------------------------|--------|
| Public Realm Maintenance | 0.500  |
| Waste Management         | -0.500 |
|                          |        |
| Sub total                | 0.000  |

The whole group has been subject to profound change and the implications of Access Harrow, SAP and configuration of waste services together with the

requirement to fundamentally reposition the business to realize a £2.2m reduction in the cost base. The enormity of this task should not be underestimated.

Public Realm Services continues to be at the forefront of delivering Urban Living's savings. Verifiable, grounded savings of £1,850,000 have been realised within the department, to meet annual savings targets set by Cabinet. Further savings have been projected based on period 1 to 9 actual spend – these projections are in the process of being refined. It is expected that at year-end, Public Realm Services will come in on budget. However, there are a number of caveats to this projection; such as unexpected seasonal / business critical spend, debtors, but most importantly, the volatility of Section 52.9 waste charges. All of these areas will continue to be closely monitored by this service area.

The reduction in direct and indirect PRS labour costs is a significant achievement, and the lower expenditure incurred on weekend working arrangements which will mean a reduction in salary in the order of £2,000 per person per annum is being implemented in a most careful and considered way. Effective from week commencing 8th January 2006, this has been crucial to our success. Furthermore, an increase in fees and charges across the department has been introduced without any significant adverse repercussions from customers.

Following the implementation of SAP/ERP, developmental work has occurred (which continues to occur) with regards to establishing robust and effective monitoring from 1st April 2007.

## **Housing Services**

| Item        | £000   |
|-------------|--------|
| Finders Fee | -0.050 |
|             |        |
| Sub total   | -0.050 |

In June 2006 the Housing Service identified savings in the General Fund (GF) of £120k. The current forecast is that these savings will be achieved.

Further savings estimated at £50k will be achieved by 31<sup>st</sup> March 2007 in the General Fund housing service. This is due largely to the downturn in the number of private properties that are procured via the Finders Fee scheme. The emergency hostels are currently full to capacity and there has been an increase in the use of emergency bed and breakfast accommodation because of low take up in finders fee and emergency accommodation being full. Difficulty in securing private sector properties has contributed to using more bed and breakfast to temporarily house homeless persons.

To meet the increase in demand for housing, partner RSL's have been asked to increase the number of temporary accommodation units that they are procuring for accepted homeless households. Weekly assessment of supply and demand takes place in order to confirm to RSL partners the size of accommodation required. There is a risk that this may lead to an increase number of void units that would have an impact on the voids budget.

#### Planning Services

| Item                         | £000  |
|------------------------------|-------|
| Development Control Salaries | 0.075 |
|                              |       |
| Sub total                    | 0.075 |

There are currently significant challenges within this service area and it should be noted that staff have been cut back to the minimum possible. This is clearly having a detrimental impact on the quality of service delivered. Harrow has been identified as a potential Planning Standards Authority in major applications for 2007/08. We are identifying opportunities during the restructuring to minimize impact by improving efficiencies wherever possible. We have put our case to the Department for Communities and Local Government to not be a Planning Standards Authority for 2007-08 and are awaiting their response.

The forecast shows an overspend of £75k and is being carefully monitored. Income for Building Control and Development Control will continue to be monitored throughout the year against target. Income capture is currently behind due to new system (MVM/SAP) implementation/interface issues. This backlog is being cleared with a lot of the income now identified. Whilst there has been a 'catch up' on the income, this work is currently ongoing and is expected to be completed by January 2007.

Strategic Planning is now integrated with the rest of Planning Services. Potential risks and opportunities within this area have been identified. The reduction in the capital programme has reduced the opportunities to capitalise expenditure, putting increasing pressure on the ability to deliver within budget.

#### **Property and Facilities Services**

Property and Facilities Services remain on target to achieve the projected savings this year. Opportunities to capitalise expenditure where applicable and appropriate have been identified and progressed. The income from Commercial Property Assets is expected to increase in response to additional leases and ongoing rent reviews. There is a risk due to the rising costs of utilities; this will be managed and compensatory savings have been identified to overcome these increased costs. The service area will continue to monitor the situation closely to ensure the target savings are achieved.

## Strategy and Business Support Services

| Item              | £000  |
|-------------------|-------|
| Catering Services | 0.080 |
|                   |       |
| Sub total         | 0.080 |

The options around Concessionary Fares have been considered and a report was sent to CMT for review. The decisions from the report will have no impact in the current financial year. This non-achievement will be partially offset by a contribution from TfL towards the cost of assessments of c£40k. Compensatory savings from across Urban Living will cover overspends identified in this area.

The Catering and Transport areas are currently being reviewed. As at period nine the Catering service is forecast to overspend by £88k. As a result of the reduction in hospitality income at the Civic Centre restaurant, staffing levels were reduced quickly to mitigate the loss of income; this took some time to have an impact. This combined with the ongoing fixed costs and falling customer numbers has impacted the level of income generated. Further to this, heating breakdowns have led to customer numbers reducing even further. However work has now been commissioned to carry out necessary works to the boiler.

Both high schools are under achieving on income (students buying food from other external sources), which will result in a higher net cost of service provision. We are currently reviewing the school catering programme.

Transport costs are projected to be overspent and People First have been informed of this as the budget for the service lies in the People First area. Currently individual SNT routes do not fully cover costs. This is due to single status allowance, larger than expected increases in fuel costs, ad hoc hire costs and unavoidable overtime costs to meet service requirements from People First. The cost base for the service is being thoroughly reviewed with a view to bringing in line with budget available for the 1<sup>st</sup> April 2007. Steps have now been taken to ensure that SNT fully recovers all costs for 2007/08 and beyond. Clearly this will lead to increased charges to People First, if they continue to require service provision at the current level.

## Housing Revenue Account

| Item                | £000   |
|---------------------|--------|
| Contingencies       | -0.390 |
| Charges for Capital | -0.366 |
| Bad Debt            | -0.100 |
| General Underspend  | -0.151 |
|                     |        |
| Sub total           | -1,007 |

The HRA is projected to generate a surplus for 2006-2007 providing the risk area of response repairs is appropriately managed. This is essential together with the proposed rent increase, to enable achievement of the Decent Homes target and maintain the related higher standards of maintenance. The repairs service is under pressure at the moment and accounts due at the 9-month period have not yet all been paid. The risk of terminating the current contracts in June 2007 must be managed. A thorough review of the salaries budget has been undertaken assessing the GRF and HRA expenditure. The outcome of the assessment is included in the outturn for the 9-month period. The leasehold charges collection is on target with the expectation that the invoicing round for 2007/08 will occur in

March 2007. Invoices for 2006/7 were sent out in October 2006. Leasehold charging is now up to date and in line with good practice. This will create flexibility in the HRA in the current year, as there is likely to be a significant reduction in the bad debt provision. A rent first campaign is under way to increase the rent collection rates and reduce rent arrears. The new tenancy agreement should also assist in the collection of some former tenant rent arrears. It should be noted that further detailed work is ongoing with regard to the full year forecast.

## Appendix 2

#### 2006-2007 MTBS Savings Monitoring

Very detailed monitoring arrangements have been put in place for all the savings in the budget. For allocated savings in the approved budget, the responsible budget manager has completed a template setting out how the savings will be achieved and the contingency plans.

The following sets out the current progress of the 2006-2007 MTBS savings (i.e. savings included in the budget approved in February 2006).

| Proposal                 | 2006-2007<br>£ | Status      | Comments  |

| Building Control<br>Income      |                | On target to<br>be<br>achieved.  | Income for BC and DC will be monitored throughout the year against target.  |
| Adaptation Service              |                | On target to<br>be<br>achieved.  | Salaries will be capitalised to achieve this saving   |
| Various Building<br>Maintenance |                | On target to<br>be<br>achieved.  | There is a risk to this saving in the event of<br>significant failure of the structure or<br>equipment within Civic Centre complex<br>that may not be able to be contained within<br>reduced budgets. However, the risks are<br>currently being managed.  |
| Commercial Rents                |                | On target to<br>be<br>achieved.  | There is ongoing review of leases and rents.  |
| Urban Living - Strat            | egy & BSS      |  |   |
| Concessionary<br>Travel         |                | At risk of<br>not being<br>achieved.<br>Options<br>being<br>considered | It was originally anticipated that Harrow<br>would be benefiting from the reduction in<br>numbers entitled to Taxicards as a result<br>of re-assessments in 2005-2006. TfL is<br>now claiming all such savings should to be<br>attributed to them. The options around<br>Concessionary Fares have been<br>considered and a report went to CMT for<br>review. The decisions from the report will<br>have no impact in the current financial<br>year. This will offset by a contribution from<br>TfL towards the cost of assessments of<br>c£40k. |

# Appendix 3

# August 3<sup>rd</sup> 2006-2007 Savings Plan

In addition to the MTBS savings set out in Appendix 2, additional budget reductions were approved in August 2006. Detailed monitoring arrangements have been put in place for these additional savings. The following sets out the current progress of the 2006-2007 recovery plan.

# Appendix 4

#### **General Fund Balances**

The revenue outturn for 2005-2006, and accounts, resulted in General Fund Balances below the agreed minimum level after additional provisions were made in the accounts. The forecast balance at 31 March 2007 remains below the agreed minimum level of £3.5m as set out in the following table.

| £m   |
|------|
|      |
| 1.8  |
| -0.3 |
|      |
| 1.5  |
|      |

#### Payment Performance

<u>Creditor Invoices:</u> The payment performance against the BVPI (payment of invoices within 30 days) for the third quarter is 75%. Prior quarters were based on data samples, third quarter 2006-2007 based on actual.

<u>General debtor invoices:</u> The invoice numbers have increased due to more frequent billing of smaller sums. The difference between the third quarter values is due to reduced billing of the PCT.

|  | 2005-2006 |         |         | 2006-2007 |         |         |

#### Debt Management

#### **Collection Fund**

The Collection Fund, a separate statutory account to reflect the billing of Council Tax, had a deficit £2.185m at the end of 2005-2006. However the level of collectable tax is improving in 2006-2007, and although the outturn deficit could impact on the level of Council Tax in 2007-2008 it is estimated that the improvement will assist in covering most of the deficit by the end of 2006-2007.

Tables, showing the aged debt analysis for both Council Tax and Business Rates (NNDR) at the end of December 2006, together with the required amounts for BDP according to the rate cards adopted are set out below.

#### Council Tax

Currently, bad debt provisions (BDP) of £1.981m\* exist for Council Tax against a potential BDP of £2.188m for debts accrued to 31 December 2006. At present there is a shortfall of £207k. However the shortfall is expected to be covered in full by an additional surplus in the current financial year.

#### National Non Domestic Rates (NNDR)

Currently, bad debt provisions of £1.880m\* exist for business rates (NNDR) against a potential BDP of £1.4m but as the business rates are a call on the national non-domestic rate pool of central government there is no financial affect to this Authority.

## Appendix 7

# **Risk Assessment and Reserves Policy**

As part of the budget process for 2006-2007 the Council approved that the level of general reserves should be held at a minimum of £3.5m. This followed consideration of a risk based approach to determining the appropriate level of general reserves.

#### Risk Based Approach

The budget risk assessment is set out below.

The following approach has been used:

#### Likelihood

| Rating | Description       | Range  | Midpoint |
|--------|-------------------|--------|----------|
| A      | Very High         | >80%   | 90%      |
| В      | High              | 51-80% | 65%      |
| С      | Significant       | 25-50% | 38%      |
| D      | Low               | 10-24% | 17%      |
| E      | Very Low          | 3-9%   | 6%       |
| F      | Almost impossible | 1-2%   |          |

#### Impact

| Rating | Description  |
|--------|--------------|
| 1      | Catastrophic |
| II     | Critical     |
| III    | Marginal     |
| IV     | Negligible   |

For each identified risk, the worst-case scenario in terms of possible overspend or income shortfall has been identified and multiplied by the likelihood.

The risk register includes following items, which have materialised during 2006-07:

- Relationship with the PCT
- LPSA and LAGBI
- Delivery of efficiency/procurement savings and delivery of BTP savings

- Capital financing costs
- By-election

There are no new risks emerging in the second quarter.

## Legal / Litigation

A number of cases that could involve litigation cover employment tribunals, planning appeals, personal injury claims and cases involving clients in our care are currently in hand.

In some cases insurance is in place and financial liability is capped. The Council's governance framework is there to reduce risk and ensure that the Council carries out its duties properly and is not negligent. However there is increasingly a compensation culture.

#### Insurance

There are currently 21 cases, potentially over £50k in value, under consideration by the Council's insurers. The estimated total value of these cases, which are covered by the Council's self-insurance provisions, is  $\pounds$ 1.836m. This figure may alter as the insurers finish their case reviews. In addition to these cases there are 2 cases that fall outside the insurance policy, totaling £0.75m. Appropriate provision has been made to cover the potential liability.

| Comments                                |      | Further review conducted in 2005/06, which should demonstrate that provision is adequate. Cabinet received a report in March 2006 covering debt recovery policy. Improved monitoring arrangements going forward. | High risk of it changing but we<br>are moving to 3 year settlements<br>for most grants which reduces<br>risk. | In 2005-06 Land charges income<br>reduced significantly due to the<br>property market. This reduction<br>is reflected in the 2006-07<br>budget. Further reductions are<br>unlikely. However the pricing<br>structure may change from 2007-<br>08. | The Business growth incentive<br>scheme (LABGI) allows us to<br>retain some non-domestic rate<br>income locally. Given the<br>uncertainty around the scheme<br>this is a significant risk area.<br>However, the 2006-07 budget<br>does not contain any further<br>growth in the income target.<br>However there remains a risk in<br>2006-2007 of lower receipts. |

| Comments                                |      | This is a fairly long-term issue<br>around the employment market<br>and the Council's ability to recruit<br>and retain staff. Strategies are in<br>place. In the short term there<br>could be increases in recruitment<br>costs. | Litigation could include<br>Employment tribunals, planning<br>appeals, personal injury claims,<br>cases involving clients in our<br>care, and even corporate<br>manslaughter.<br>In some cases insurance is in<br>place and liability is capped. The<br>Council's governance framework<br>is there to reduce risk and ensure<br>that the Council carries out its<br>duties properly and is not<br>negligent. However there is<br>increasingly a compensation<br>culture. | No major cases in recent years. | Always have 3 years notice of changes of this nature so that they can be fully reflected in the budget. |

## CAPITAL PROGRAMME MONITORING AS AT 31 DECEMBER 2006

# Changes to the Approved Programme

As a result of the latest monitoring exercise the savings and adjustments summarised below have been identified.

# **Urban Living – Housing General Fund**

#### **Reduction / Saving**

| -£120,000 saving to the Council will be |
|---|
| -£45,300                                |
|   |
| ndon                                    |
| +£162,400                               |
| +£105,000                               |
| -£15,400                                |
| +£45,300                                |
| +£100,000<br>s +£50,000                 |
|   |

Agreement has been reached to accept a Section 106 contribution of £750,000 in connection with Prince Edward Playing Fields. Additional costs of £100,00 on the site have been incurred on this scheme, which will be met from this sum. However, this still reduces the amount to be met from Council funds by £650,000. Of this £50,000 has been allocated to carry out repair and improvement works to plant and equipment in the Civic Centre which is in danger of failing. The net reduction in the use of Council funds as a result of the Section 106 contribution will therefore be £600,000.

#### Virements

A new scheme, the Harrow Integrated Property Partnership (HIPP), will be met from savings on other Urban Living schemes.
