

Harrow Strategic Partnership Board

14th June 2007

Constitutional Issues

The HSP Board is asked to consider:

The amendments suggested as tracked changes in the attached copy of the HSP Constitution and any further membership changes that may arise at the meeting.

Background

1. The constitution for the Partnership is an evolving document. It needs to change to reflect the new organisations that become active partners, the changes in the terminology used by Government and the management and organisational arrangements of partners. The current version of the constitution is attached with tracked changes to suggest amendments. As well as the membership etc changes, there are some proposed amendments to make the document easier to understand.
