PETITION

(1st July 2007)

(Local Resident Objections)

Some of the reasons for our objection to the Proposed Planning Application (P/1281/07) at 397 Torbay Road, Harrow, Middlesex HA2 9QB are as follows:

- Loss of amenities
- Loss of privacy to adjacent properties
- Increased traffic congestion-very close to a dangerous junction and road bend-there have been already several car accidents
- Proposed house to be erected over a major culverted brook-increasing risk of foundations collapsing
- Such a dwelling would create more problems connecting it to foul and surface drainage
- New property would increase the risk of flooding as outside there is a section of the road which is very prone to flooding even though Harrow Council has already carried out major corrective actions (please see attached some recent photos during light rain conditions)
- The site of the proposed construction falls within the Harrow Council's registered Flood Risk Area
- Due to the constant flooding problems at the front section of the road of the proposed construction, the back gardens of the adjacent properties also get badly flooded.

Petition

Action Planning Application Reference: P/1281/07
Petitioned Location : 397 Torbay Road, Harrow , HA2 9QB
For: Proposal: Single & two storey detached dwelling house with a lower ground floor.

We, the undersigned, petition Harrow Council to refuse the granting of planning permission for the above application to construct a single detached house between 397 & 399 Torbay Road, Harrow , Middlesex .
