### **Appendix C**

## **Controlled Parking Zones and Resident Parking Schemes**

### Priority list for financial year 2008/09 to March 2011

Seven main factors govern the programme: Implementation date of last review for this area (if applicable), staff availability, current implementation programme, funding, council (Traffic and Road Safety Advisory Panel) meetings (4 per year), Portfolio Holder decisions and favourable consultation results. Where considered appropriate reports and objections will be dealt with directly by the Portfolio Holder for Environment Services in order to speed up decision making.

The programme is also subject to change depending on other council decisions, such as whether there is a Scrutiny Committee "call-in", referrals to Council Cabinet, other priorities, workload and available resources as they emerge during the year.

All reviews will consider the need for on street business permits with the exception of Harrow Town Centre.
