Apple Mac Pro 2x 2.8GHz SuperDrive Desktop Computer

Product Information

The outstanding Apple Mac Pro features 2 Dual Core Intel Xeon Harpertown processors for incredible speed and efficiency. Working in tandem with the included Mac OS X Leopard operating system, the 2x 2.8GHz processors makes light work of complex applications. Eight-core processing power ensures blazingly fast computing speed up to two times faster than the previous standard-configuration Mac Pro.

This exceptional machine crams in a massive 320GB hard drive, 2GB of RAM and a double layer SuperDrive for playing and burning CDs and DVDs. It features an Nvidia GeForce 7300GT graphics card for awesome visuals and there's a whole host of connections including 5x USB 2.0, one PCI Express 2.0 plus two PCI Express ports.

Key Features

Brand	Apple
Built-in ethernet connection	10/100/1000
CD / DVD optical drive	SuperDrive (double layer)
Computer Software Helpline	<u>Free 90 day computer support</u>
Dimensions	H51 x W20.5 x D47.5cm
FireWire / IEEE 1394 ports	2x FireWire 400, 2x FireWire 800
Floppy disk drive	No
Graphics card	ATI Radeon HD 2600 XT
Graphics card - video RAM	256MB
Guarantee	FREE 2 year guarantee, <u>extend to 3 years</u> £70
Hard drive	320GB
Included	Apple Keyboard and Mighty Mouse
Memory card slot	No
Model name / number	MA970B/A

APPENDIX 2

Modem	No
Monitor	No
Operating system	Mac OS X v10.5 Leopard
Processor	Dual-Core Intel Xeon 5100 processors
Processor speed	2x 2.8GHz
RAM	2GB
Stereo speakers	Built-in
TV tuner card	No
USB ports	5x USB 2.0
Visible screen size (measured diagonally)	Not applicable
Weight	19.2kg
Wireless networking	No

Software included:

Mac OS X v10.5 Leopard (includes Time Machine, Quick Look, Spaces, Spotlight, Dashboard, Mail, iChat, Safari, Address Book, QuickTime, iCal, DVD Player, Photo Booth, Front Row, Xcode Developer Tools)
iLife '08 (includes iTunes, iPhoto, iMovie HD, iDVD, iWeb, GarageBand)

 AppleCare Protection Plan for Mac

Overview | Compare Specs | Gallery | Warranty info

Mac Pro. The fastest, most powerful Mac. Ever.

8 cores, standard.
 8-core processing was once reserved as a high-end option. Now it's at the heart of the Mac Pro line. This incredible power stems from all-new Quad-Core Intel Xeon "Harpertown" processors, featuring speeds up to 3.2GHz and 12MB of L2 cache per processor.

Blazing fast, up to 2x performance.
 With its 8-core processing, advanced Xeon architecture, 1600MHz dual independent front-side buses, and 800MHz memory, the new Mac Pro delivers up to 2x greater application performance.²

Up to 4TB storage, RAID, and SAS.
 The cable-free, direct-attach hard drive bays make it easy to install up to 4TB of storage using Serial ATA 3Gb/s drives. For enhanced data protection, the optional Mac Pro RAID card delivers hardware RAID levels 0, 1, 5, and 10. Used with this card, 15,000-rpm SAS drives bring added performance to RAID configurations.

The new generation of graphics.
 All new, high-performance graphics cards from ATI and NVIDIA offer even greater performance for 3D and graphics-intensive applications. For more power, upgrade to a workstation-class card with up to 1.5GB of memory. All cards now support up to two 30-inch Apple Cinema HD displays.

Mac Pro 8-core 2.8 GHz²

- Logic Pro (vs. 4-core iMac) 2.3x
- Maya (vs. 4-core iMac) 2.1x
- Final Cut Pro HDV (vs. iMac) 1.9x

Mac Pro quad-core 2.66 GHz

PCI Express 2.0, double the speed.
 The PCI Express 2.0 graphics card slot delivers twice the transfer rate of the previous generation. And you can install up to three additional PCI Express cards in three full-length slots — one PCIe 2.0, the other two PCIe.

Massive, fast memory.
 Add up to fast 32GB of 800MHz DDR2 ECC fully buffered memory — a memory architecture that's up to 256 bits wide and allows for incredible memory capacity, bandwidth, and reliability.

HARROW

GINGERBREAD

Pinner Youth and Community Centre, Chapel Lane, Pinner, Middx. Contact: Cathy - 0208 204 0844.

Dear Edward Harvist Trust Fund,

We are making this application for our Lone Parent Support Group, meeting the needs of children and young people, enabling them to gain independence, new life skills boost confidences and make new friendships.

These young people who will be participating come from different backgrounds – i.e. Domestic Violence, low income, and temporary accommodation, families who have suffered bereavement, young carers, disabilities and special needs.

Young people would be empowered, supported and encouraged to create their own menus and produce them onto 'menu format' from the computer, printing off recipes for all the young members to keep in a Display book and take photographs to keep and try them at home with family and friends, giving independence and responsibility towards their transitions to adulthood. Young people would be making a positive contribution to their well being by taking it in turns, in small groups to use the utensils and foods/ fruits and would be supervised with a group of adult volunteers in the kitchen, bringing Healthy Eating and awareness into their life skills and experiences.

We at Harrow Gingerbread would like to make an application for funding for equipment for our Healthy Eating Project. We would need funding for the following equipment:-

✓ Pots and pans	861/1752	p.772	£49.99
✓ Utensils	842/0826	p.763	£29.99
✓ Cutlery	820/6143	p.730	£02.99 set x 6
