

LONDON BOROUGH OF HARROW

TO: CABINET - 17th JULY 2008

FROM: COUNCIL – 10th JULY 2008

Motion Referred to Executive – HARROW TOWN CENTRE

1. At the meeting of Council held on 10 July 2008, and in accordance with the provisions of Rule 15.6, a Motion proposed by Councillor Bill Stephenson and seconded by Councillor Keith Ferry, was resolved to stand referred to the next meeting of the Executive (in particular the Local Development Framework Panel).
2. This was due to the issue of an overall master plan for the development of the Town Centre and its infrastructure, and the provision of any new leisure facilities being matters within the powers of the Executive.

Harrow Town Centre

“This Council is concerned that Harrow Town Centre is rapidly moving to becoming a high-rise, overdeveloped jungle of flats – the prime example so far being the development on the Gayton Road site promoted by Harrow Council, which has met with universal condemnation by Harrow residents. There is no overall master plan for the development of the Town Centre and its infrastructure or for the provision of any new leisure facilities.

Council notes and supports the commitments made by the new Mayor of London during the recent GLA campaign to protect Outer London boroughs from high-rise buildings and over development and to place greater emphasis on providing a higher proportion of family size dwellings, and calls on him to honour his election pledge when considering major developments in Harrow”.

FOR CONSIDERATION
