

18<sup>TH</sup> February 2010

Please find enclosed a petition from 18 residents of Warrington Road, against the conversion of 59 Warrington into three self contained flats.

The work appears to have been carried out already without planning permission, in spite of being told repeatedly that they would need this permission. All the reasons are well documented in the petition, plus further objections by the direct neighbours of 57 and 61 Warrington as well as nos 54 and 58. The original letter which has been sent to the planning department was signed by the six neighbours who received the letter from the Council asking for any objections.

We also enclose a copy of a solicitor's letter addressing the issues. We most vehemently hope there will be a stop to more conversions in the road.
