

LONDON BOROUGH OF HARROW

TRAFFIC & ROAD SAFETY ADVISORY PANEL - 15 JULY 2010

QUESTION WITH NOTICE

A period of up to 15 minutes is allowed for the asking of written questions by Members of the public of the Chairman of any Committee.

Questioner: Mr Ron Thornton

Asked of: Councillor Nizam Ismail (Chairman of the Traffic & Road Safety Advisory Panel)

Question 1:

“Is the Panel aware of the difficulties and dangers for both pedestrians and motorists at the junction in North Harrow of Station Road and Pinner Road?”

Are they aware of:

a) the difficulties of crossing the road for pedestrians on three of the four roads at the junction, as only the crossing from the ex-Safeway side to the ex-Portman Building Society side has pedestrian controlled lights and,

b) the dangers faced by traffic turning right from Station Road (from Wealdstone direction) into Pinner Road (Pinner direction). This is the most dangerous of the permitted right turns as there are three lanes of traffic approaching the lights from the opposing direction, and the traffic in the lane for turning right towards Harrow screens the traffic coming straight on towards Wealdstone.”
