

Harrow Strategic Partnership Board

Towards a Community Engagement Strategy for Harrow

Summary

The attached document identifies Harrow Council's approach to engaging with stakeholders, partners and residents in the borough. It aims to provide a corporate standard for our engagement activities and identifies Harrow's responsibilities as well as expectations of participants. The document also identifies the importance of community engagement to meet the expectation that the council will play a community leadership role locally.

The HSP Board are requested:

- I. To comment on the approach being taken to develop the Strategy
- II. To acknowledge that the Strategy is aligned to the Harrow Compact on consultation
- III. To note the role of the HSP in formalising the Strategy
- IV. To identify further groups for consultation

Recommendations

At a future meeting, the HSP are asked to look at opportunities for streamlining community engagement activities across key agencies in the borough.
