Dear Sir

Premises License Application – 43 High Street, Harrow on the Hill

I am in receipt of a letter from Mr Ash Waghela, Licensing Support Officer, dated 30 December 2011 (ref; ce/css/lic/HFR1) concerning the above.

With regard to the application for a liquor license for the above premises I wish to make the following points:

- I do not have any objection at all to the principle of the application in terms of liquor being sold from those premises as it will be a further amenity for Harrow on the Hill.
- I do, however, wish to raise an objection to the hours during which liquor will be able to be sold. I note that every day, liquor could be sold until 11pm which I feel is too late for the following reasons;
 - The shop's current operating hours are different from that time and it usually closes much earlier than 11pm
 - Is the shop owner proposing to have longer operating hours now?
 - If liquor is sold until 11pm each day I feel there will be a risk of an increased level of public nuisance at that late hour.

In summary, whilst I support the application, I do have concerns about the 11pm time in the proposal and therefore request that this time should be earlier to link in with the opening hours of the shop

I will be very happy to expand on the above points if it is considered necessary.

Yours faithfully

Douglas Benham

Cc Ash Waghela
