Chief Environment Health Officer  
London Borough of Harrow,  
Civic Centre  
PO Box 18,  
Station Road  
Harrow,  
HA1 2UT

Dear Sir/Madame,

I was recently notified of plans to allow the Millhillian Sports Club a license to sell alcohol as well as play live/recorded music.

As a resident whose garden backs on to the area, I am truly disappointed and disgusted at this prospect. When purchasing my property on Park View almost 10 years ago, the main factor that attracted me to the property was the peace and quiet of a residential suburban neighbourhood.

The prospect of my idyllic back garden being disturbed by loud music starting early and going on late into the night, which as been the case in previous summer periods, is something I disagree with whole heartedly.

I am supported by other home owners on Park View and probably other surrounding roads when I say we disapprove of this license being granted and firmly believe it should not be granted.

Park View is a respectful neighbourhood where we consider and respect other home owners to the extent where we notify our neighbours prior to a private event which may disturb them. We all wish to live in a peaceful, quiet neighbourhood where we are not disturbed during the early hours of the mornings or the late hours of the evenings where residents may want to sit in their gardens and enjoy the peace and quiet in the warm summer months.

I will be shocked and appalled if Harrow Council still grants the license after the uproar created by the

residents of Park View. I will further oppose this motion wherever necessary.

"Home" is a place where many residents wish to feel safe, secure and most of all happy. The quiet hum of cheers during a cricket match in the back ground adds a sense of community and life on an occasional weekend, however, loud and continuous music is something we are all heavily opposed to. That does not instil a sense of "home". Quite frankly, we all wish to live in our homes, roads, avenues and overall communities with no disturbances which includes a make shift nightclub which will be severely out of place in a suburban neighbourhood. I am certain that if the residents wished to have this environment, they would have purchased a house next door to a nightclub. Residents will most certainly lose faith in the integrity of Harrow Council if this license is to be granted.

We call upon the kind-hearted nature of the members of the council to reflect upon their own neighbourhoods and consider what they would do if this were to happen to the place they themselves call Home.

Yours Sincerely,

  
Dr. S Chandrasekara
